Changing Families
Irving E. Sigel, 2012-12-06 In a previous volume *Families as Learning Environments for Children* we presented a series of chapters that dealt with research programs on the role of families as learning environments for children Those studies were based on empirical data and sought answers to basic research questions with no explicit concern for the application of the results to practical problems Rather their purpose was to contribute primarily to conceptualization research methodology and psychological theory Now in this volume we turn our attention to intervention efforts to modify the way a family develops As in our previous conference the participants of the working conference on which the present volume is based are research scientists and scholars interested in application This group is distinct from practitioners however whose primary focus is service participants in this conference have as their primary interest research into the problems of processes of application Applied professional issues concerning the lives of families come from many varied sources from some that are distant and impersonal e.g. the law to direct face to face efforts educators therapists The variety of sources and types of applications are eloquent testimony to the degree to which families are subject to a host of societal forces whose implicit or explicit aim is to modify family functioning For example some educators may wish to alter family child rearing patterns to enhance child development the clinician seeks to help families come to terms and to cope with a schizophrenic child The list can be extended

Canada's Changing Families Kevin McQuillan, Zenaida R. Ravanera, 2006-01-01 In recent years two significant trends have had a substantial impact on Canadian families First Canadian families have been dramatically altered by high rates of separation and divorce declining fertility greater popularity of alternative family arrangements such as cohabitation and increasing involvement of women in paid labour Second changes occurring in the economy and the larger society have brought new pressures to bear on families In *Canada's Changing Families* editors Kevin McQuillan and Zenaida R. Ravanera explore how these developments have altered family life Using data collected in recent surveys by Statistics

Canada contributors to this volume illustrate how transformed conditions in the labour market have forced families to alter their routines and the division of responsibilities within the household At the same time the government striving to maintain or increase the competitive position of the economy has moved to control spending restrain taxes and reduce deficits The result has been new demands on the family to provide or supplement services that might otherwise be provided by the state Canada s Changing Families is an eye opening study and one of great contemporary relevance **The Changing Family** Mark Hutter,1986 **Changing Families, Changing Responsibilities** Marilyn Coleman, Lawrence Ganong,1999-05 This

volume explores attitudes and beliefs concerning intergenerational family responsibilities with special focus on families affected by divorce and or remarriage For developmentalists family studies specialists sociologists and policy makers

Changing Families, Changing Responsibilities Marilyn Coleman, Lawrence Ganong,1999-05-01 This book explores the topic of family obligations following changes in family structure caused by divorce and remarriage Family obligations are commonly defined as the rights and duties that accompany family roles They have been described as the glue that connects generations as well as the oughts and shoulds that surround individual family relationships This book is primarily concerned with normative beliefs about what family members should do for each other It differs from previous accounts of family obligation norms because it specifically focuses on family responsibilities after divorce and remarriage two events that affect an increasing number of families today The authors draw extensively upon the findings of 13 studies of normative beliefs regarding post divorce intergenerational family obligations This book fills a gap in the present literature concerning family obligation It addresses the weaknesses of prior research by focusing on family transitions and by presenting data from studies that employ contextual methods The content will provide guidance to policymakers and helping professionals who work with families and the unique focus and procedures of the studies are likely to set the standard for future assessments of normative beliefs about family obligations **Changing Families** Sally Ives Loughridge, David Fassler, Michele Lash,198?

Provides advice on coping with such family changes as separation divorce remarriage new family members and new schools

Children and the Changing Family An-Magritt Jensen, Lorna McKee,2003 The editors maintain that there is a compelling need to explore the child s role in major familial decisions such as divorce moving house employment or childcare

Treating the Changing Family Michele Harway,1996 Receiving special attention are the structure dynamics and unique problems of families that do not fit the traditional mold Experts in these areas share their findings and provide clinical guidelines for treating bi nuclear single parent gay and lesbian and other nontraditional families *Changing Families*

The Changing Family Mark Hutter,1998 Previous editions of this book have been at the forefront of changes in sociology s perspectives and views No different is this third edition as it examines the family through a feminist perspective addresses diversity and multiculturalism and reflects upon the globalization of sociology D This updated edition analyzes the family life cycle from an historical and cross cultural perspective The issues of race class gender and ethnicity are incorporated into the theoretical framework Global examples are used to illustrate the diversity of American family dynamics The book also explains how political and economic changes such as industrialization and urbanization affect the structure and dynamics of the family

Changing Gender Relations, Changing Families Oriel Sullivan,2006-04-27 It s common knowledge that responsibilities in the home are not divided equally between men and women Most sociological studies of this phenomenon focus on why these gender differences are so persistent persistent enough to have earned names like the dual burden and the second shift Feminists bemoan how slowly this gender gap is changing Sociologist Oriel Sullivan however focuses on the neglected topic of the processes of change discussing changing domestic gender practices on many different levels from changes in attitudes about gender equality in the home to the quantitative analysis of change in the domestic division of labor Sullivan argues that it s time to consider these issues from a longer historical perspective *Changing Genders Changing*

Families argues for an acceptance that change is with us presents multi layered evidence for change and offers a theoretical structure that is useful for developing an account of these processes of change His newly developed theoretical approach connects the wider discussion of gender practices within the home to the interactions and negotiations that individuals engage in on a day to day basis He includes empirical evidence for change presenting findings based upon directly comparable cross national data from the mid 1960s to the late 1990s This book will appeal to readers interested in gender studies sociology and in the changing gender equity of the home
