TOMEK. STRZALKOWSKI, 2022      Discourse Analysis Gillian Brown, George Yule, 1983-07-28 Discourse analysis is a term that has come to have different interpretations for scholars working in different disciplines For a sociolinguist it is concerned mainly with the structure of social interaction manifested in conversation for a psycholinguist it is primarily concerned with the nature of comprehension of short written texts for the computational linguist it is concerned with producing operational models of text understanding within highly limited contexts In this textbook first published in 1983 the authors provide an extensive overview of the many and diverse approaches to the study of discourse but base their own approach centrally on the discipline which to varying degrees is common to them all linguistics Using a methodology which has much in common with descriptive linguistics they offer a lucid and wide ranging account of how forms of language are used in communication Their principal concern is to examine how any language produced by man whether spoken or written is used to communicate for a purpose in a context      **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the *Encyclopedia of Contemporary Literary Theory* provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical

context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture
