# Discourses Of Algernon Sidney Vol 45

**Michael Rajnik**

## **Discourses Of Algernon Sidney Vol 45:**

*Quaker Constitutionalism and the Political Thought of John Dickinson* Jane E. Calvert, 2009 This book traces the theory of Quaker constitutionalism from the early Quakers through Founding Father John Dickinson to Martin Luther King Jr The Politics of Liberty in England and Revolutionary America Lee Ward, 2004-07-26 This study locates the philosophical origins of the Anglo American political and constitutional tradition in the philosophical theological and political controversies in seventeenth century England By examining the quarrel it identifies the source of modern liberal republican and conservative ideas about natural rights and government in the seminal works of the Exclusion Whigs Locke Sidney and Tyrrell and their philosophical forebears Hobbes Grotius Spinoza and Pufendorf This study illuminates how these first Whigs and their diverse eighteenth century intellectual heirs such as Bolingbroke Montesquieu Hume Blackstone Otis Jefferson Burke and Paine contributed to the formation of Anglo American political and constitutional theory in the crucial period from the Glorious Revolution through to the American Revolution and the creation of a distinctly American understanding of rights and government in the first state constitutions The Bookseller and the Stationery Trades' Journal , 1897 Official organ of the book trade of the United Kingdom **Algernon Sidney** Gertrude Mary Ireland Blackburne, 1885 **Republicanism** Rachel Hammersley, 2020-09-22 Republicanism is a centuries old political tradition yet its precise meaning has long been contested The term has been used to refer to government in the public interest to regimes administered by a collective body or an elected president and even just to systems embodying the values of liberty and civic virtue But what do we really mean when we talk about republicanism In this new book leading scholar Rachel Hammersley expertly and accessibly introduces this complex but important topic Beginning in the ancient world she traces the history of republican government in theory and practice across the centuries in Europe and North America concluding with an analysis of republicanism in our contemporary politics She argues that republicanism is a dynamic political language with each new generation of thinkers building on the ideas of their predecessors and adapting them in response to their own circumstances concerns and crises This compelling account of the origins history and potential future of one of the world s most enduring political ideas will be essential reading for anyone with an interest in republicanism from historians and political theorists to politicians and ordinary citizens The Europeans in Australia Alan Atkinson, 2016-07-01 It is the duty of historians to be wherever they can accurate precise humane imaginative using moral imagination above all and even handed The first of three volumes of the landmark award winning series *The Europeans in Australia* gives an account of early settlement by Britain It tells of the political and intellectual origins of this extraordinary undertaking that began during the 1780s a decade of extraordinary creativity and the climax of the European Enlightenment Volume One *The Beginning* examines the forces that led to the penal colony at Port Jackson and the first twenty five years of white settlement Atkinson examines as few historians have done before the political and intellectual origins of this extraordinary undertaking It began during the 1780s a decade of

extraordinary creativity and the climax of the European Enlightenment The purpose of settlement might seem uninspiring but the fact that this was to be a community of convicts and ex convicts raised profound questions about the common rights of the subject the responsibility of power and the possibility of imaginative attachment to a land of exile Atkinson explores the imagery and technique of European power as it made its first impact on Australia He argues that the Europeans were not simply conquerors motivated by brutal or short term colonising imperatives The Europeans culture was ancient and infinitely complex thickly woven with ideas about spirituality authority self and land all of which influenced the development of Australia The possession of land and conflict with Aboriginal peoples were at issue but so were the ancient habits of Europeans themselves The culmination of an extraordinary career in the writing and teaching of Australian history The Europeans in Australia grapples with the Australian historical experience as a whole from the point of view of the settlers from Europe Ambitious and unique it is the first such large single author account since Manning Clark s A History of Australia

Politics and Opinion in Crisis, 1678-81 Mark Knights, 2006-03-09 A reassessment of the succession crisis 1678 81 and the political crisis it provoked
