**Islam and the West** Wagih H. Makky Ph.D., 2019-04-01 This is the third book in the series Islam and the West The West here is atheism as it currently represents Western high culture It is based on the premises that atheism is exclusively the legacy of Western Christianity and the Western fallacy out of sheer ignorance of considering Islam as a Christian heresy that suffers whatever shortcomings Christianity may have Atheism took center stage with the rise of European enlightenment that sent its ideals across the Atlantic to form the intellectual foundation of the founding fathers of the American republic Atheism dismantled Western Christianity avoiding all moral arguments while taking full advantage of the presumably absurd biblical statements about material physical issues such as the age of the universe and instantaneous creation While this is patently an internal Western squabble atheists unabashedly drag Islam into the brawl Western self centeredness cannot shake off bigotry and innate historical hatred of Islam even after renouncing Christianity To make that point the book ascertains the historical fact that the celebrated Western Civilization is simply nothing more than a product of the Islamic Civilization in the sense that all civilizations produce their offspring without exception as none come from a void

It does that through discussing Muslim scholars contributions to building an Islamic way of life and Westerners absorbing such massive structure at known geographical points of contact Atheistic arguments are analyzed vis a vis well established Islamic norms and are found wanting A rule of thumb is established that Islam alone can be discussed as a true representative of Religion as opposed to atheism Since atheism s newfound religion is Science its major foundations and breakthroughs till the present are discussed Islam s sacred statements are then shown to be emphatically reconcilable with all findings of modern science without exception These are the Fruits of Knowledge Time Almanac 2001 Borgna Brunner,2000 Created by the editors of Time magazine and the experts at Information Please this almanac is the one comprehensive book of facts readers need to find everything from global trends to election results and more The more than a million facts are accompanied by over 32 pages of color maps flags and news photos **The New Encyclopaedia Britannica** ,2003 **Information Please Almanac** Simon & Schuster,1979-12 *Encyclopaedia Britannica Almanac 2005* Encyclopaedia Britannica,2004 Summarizes events from July 2003 to June 2004 and lists facts statistics rizewinners and other newsmaking developments in the sciences history theountries of the world the United States the economy the arts and sports *The 1988 Information Please Almanac* Information Please,Houghton Mifflin Company,1987-12 *The New Encyclopædia Britannica: Macropædia* ,1993 This encyclopedia includes a two volume index a 12 volume Micropaedia Ready reference a 17 volume Macropaedia Knowledge in depth and the Propaedia
