**Send Them Here** Geoffrey Cameron, 2021-02-15 The United States and Canada have historically accepted approximately three quarters of resettled refugees leading the world in this key aspect of global refugee protection Between 1945 and 1980 both countries transformed their previous policies of refugee deterrence into expansive resettlement programs Explanations for this shift have typically focused on Cold War foreign policy but there was a domestic force that propelled the rise of resettlement religious groups In *Send Them Here* Geoffrey Cameron explains the genesis and development of refugee resettlement policy in North America through the lens of the essential role played by faith based organizations Catholic Protestant and Jewish groups led advocacy efforts for refugees after the Second World War and they cooperated with each other and their respective governments to implement the first formal resettlement programs Those policy frameworks laid the foundation for diverging policy trajectories in each country leading ultimately to private sponsorship in Canada and the voluntary agency program in the United States Religious groups remain embedded in the world's most successful refugee resettlement programs *Send Them Here* draws on a rich archival record and extensive comparative research to contribute new insights to the history of refugee policy human rights and the role of religion in modern policymaking and global humanitarian efforts

*Scars of War* Sabrina Thomas, 2021-12 Best First Book Award from the History Honor Society Phi Alpha Theta *Scars of War* examines the decisions of U S policymakers denying the Amerasians of Vietnam the biracial sons and daughters of American fathers and Vietnamese mothers born during the Vietnam War American citizenship Focusing on the implications of the 1982 Amerasian Immigration Act and the 1987 Amerasian Homecoming Act Sabrina Thomas investigates why policymakers deemed a population unfit for American citizenship despite the fact that they had American fathers Thomas argues that the exclusion of citizenship was a component of bigger issues confronting the Nixon Ford Carter and Reagan administrations international relationships in a Cold War era America's defeat in the Vietnam War and a history in the United States of racially restrictive immigration and citizenship policies against mixed race persons and people of Asian descent Now more politically relevant than ever *Scars of War* explores ideas of race nation and gender in the aftermath of the Vietnam War Thomas exposes the contradictory approach of policymakers unable to reconcile Amerasian biracialism with the U S Code As they created an inclusionary discourse deeming Amerasians worthy of American action guidance and humanitarian aid federal policymakers simultaneously initiated exclusionary policies that designated these people unfit for American citizenship

*The Strangers in Our Midst* Ulrike Elisabeth Stockhausen, 2021 This book examines evangelical responses to immigrants and refugees in the era of modern immigration It traces evangelical responses to refugees and

immigrants from the Cuban refugees in the 1960s to their divided stances on undocumented immigration in the twenty first century While evangelicals drew on elaborate Biblical teachings to welcome the stranger in their activism how and to whom they applied those teachings must be understood through the lens of their partisan leanings In telling this forgotten story *The Strangers in Our Midst* adds a missing dimension to the public debate surrounding evangelical partisanship 'Whom We Shall Welcome' Danielle Battisti,2019-03-05 A history of the Italians who came to the United States after World War II and how American immigration policy was transformed *Whom We Shall Welcome* examines post World War II immigration of Italians to the United States an under studied period in Italian immigration history Danielle Battisti looks at efforts by Italian American organizations to foster Italian immigration along with the lobbying efforts of Italian Americans to change the quota laws While Italian Americans and other white ethnics had attained virtual political and social equality with many other groups of older stock Americans by the end of the war Italians continued to be classified as undesirable immigrants Battisti s work is an important contribution toward understanding the construction of Italian American racial ethnic identity in this period the role of ethnic groups in US foreign policy in the Cold War era and the history of the liberal immigration reform movement that led to the 1965 Immigration Act *Whom We Shall Welcome* makes significant contributions to histories of migration and ethnicity post World War II liberalism and immigration policy **The Open Court** Paul Carus,1912 **The Open Court** ,1912 **Sir Roger L'Estrange** George Kitchin,1913 *The Foundations of Germany* J. Gorman,1993 With over seventeen million refugees inhabiting the globe today this book addresses this dramatic 20th century phenomenon and several of the issues it raises Gorman examines how refugee situations arise and the way in which they are addressed by the various global actors governments U N agencies and private voluntary organizations He argues that the entire refugee situation the provisions of aid the search for durable solutions and the resolution of conflicts involves complex interactions between political and humanitarian causes Drawing upon his own personal experience in the refugee assistance field the author explores the various actors their interactions refugee emergencies refugee protection issues surrounding refugee repatriation local settlement and third country resettlement Gorman pays special attention to refugee policies of the U S government which have dominated the refugee assistance network since World War II The book however is much more than a systematic analysis of contemporary refugee affairs by referring to great literature history and political philosophy it illustrates how the problem of exile has been a timeless element of the human condition Combining classical scholarship international policy analysis and compelling human interest stories it offers one of the most comprehensive and unique treatments of the politics of refugee affairs and humanitarian assistance to war torn regions of the world **The comprehensive history of England, from the earliest period to the suppression of the Sepoy revolt, by C.**
