The Castles on the Ground J. M. Richards,2011-08-18 There is the puzzle which it is the purpose of this book to try to elucidate On the one hand we have the alleged deficiencies of suburban taste on the other we have the appeal it holds for ninety out of a hundred Englishmen an appeal which cannot be explained away as some strange instance of mass aberration Sir James Richards 1907 1992 editor of the Architectural Review for 34 years was arguably the leading advocate in Britain for the modern movement in architecture The Castles on the Ground 1946 constitutes Richards argument for and appreciation of the virtues of the built environment and the architectural aesthetic of suburbia Concise and elegantly phrased the volume is further blessed with superb illustrations by John Piper
