Australian Political Facts 2nd Ed:

The Australian Electoral System David M. Farrell, Ian McAllister, 2006 The first ever comprehensive study of the design of Australian electoral systems It focuses on the two electoral systems both preferential TM that are most closely associated with Australia namely the alternative vote and the single transferable vote Federalism and Second Chambers Wilfried Swenden, 2004 The theory of comparative federalism asserts that federations require a second chamber for the representation of regional interests in central law making Yet there has been little systematic analysis of the contribution of second chambers in parliamentary federations to this task The main purpose of this book is to demonstrate to what extent the two strongest parliamentary second chambers the Australian Senate and the German Bundesrat are linked to the federal structures in which they are embedded The study analyzes the contribution of the members of these second chambers in advancing interests that are linked to the regional constituents whom they represent or to the collective fiscal or administrative interests of a regional government with whom they are associated The analysis underscores the largely executive character of intergovernmental relations in parliamentary federations a feature that corresponds with the composition of the German Bundesrat but not of the Australian Senate In the concluding chapter some preliminary observations are made as to whether our findings also generate interesting insights for the larger group of parliamentary second chambers in federal or quasi federal states such as the Belgian Spanish and Canadian Senates the UK House of Lords and the Indian Rajya Sabha **Australian national bibliography**, 1961 **Fundamentals of Nursing & Midwifery** Helen Hall, Paul Glew, Johanna Rhodes, 2022-01-03 A trusted person centred resource to start you on the path to professional success *Fundamentals of Nursing and Midwifery* is a popular foundational nursing text specifically developed for Australian and New Zealand students This comprehensive resource provides a detailed overview of key information with person centred care highlighted throughout to focus on the individualistic interactive and holistic nature of nursing and midwifery practice It uses accessible language that introduces students to the why as well as the how of nursing and midwifery It focuses not only on a person's physical healthcare needs but also on the intellectual emotional sociocultural and spiritual aspects of care In this way students learn to be holistic health care professionals while acquiring the foundational knowledge procedures and skills required for successful nursing or midwifery practice Official Year Book of the Commonwealth of Australia Australia.
