Australian Disasters:

Disasters in Australia and New Zealand Scott McKinnon, Margaret Cook, 2020-07-07 Disasters in Australia and New Zealand brings together a collection of essays on the history of disasters in both countries Leading experts provide a timely interrogation of long held assumptions about the impacts of bushfires floods cyclones and earthquakes exploring the blurred line between nature and culture asking what are the anthropogenic causes of natural disasters How have disasters been remembered or forgotten And how have societies over generations responded to or understood disaster As climate change escalates disaster risk in Australia New Zealand and around the world these questions have assumed greater urgency This unique collection poses a challenge to learn from past experiences and to implement behavioural and policy change Rich in oral history and archival research Disasters in Australia and New Zealand offers practical and illuminating insights that will appeal to historians and disaster scholars across multiple disciplines *Great Disasters in Australian History* Jonathan King, 2013-11-01 A gripping account of the worst disasters to hit Australia since Federation From bushfires to cyclones sinking ships train and plane crashes mine explosions and bridge collapses the Port Arthur massacre and the Bali bombings Australia has suffered numerous terrible tragedies Bestselling author and historian Dr Jonathan King recounts the most extreme disasters to have hit Australia opening each account with stories of the victims who died or whose lives were irrevocably changed by them detailing the events and conditions that contributed to them and telling inspiring tales of heroism and bravery in response to them Dr King also shows how many of the disasters were caused by avoidable human error or negligence and warns that global warming will cause ever more extreme weather events Dreadful as they've been most Australian tragedies have resulted in constructive initiatives such as tighter gun controls in response to the Port Arthur shootings stricter regulations for transport by air sea and rail and safer conditions for workers Thought provoking and gripping *Great Disasters in Australian History* takes you on a rollercoaster ride through more than a century of tragedies that have rocked our nation **Media, Journalism and Disaster Communities** Jamie Matthews, Einar Thorsen, 2020-03-20 This book illuminates the concept of disaster communities through a series of international case studies It offers an eclectic overview of how different forms of media and journalism contribute to our understanding of the lived experiences of communities at risk from affected by and recovering from disaster This collection considers the different forms of media and journalism produced by and for communities and how they may recognise and speak to the different notions of community that emerge in disaster contexts including vulnerabilities and consequences that arise from environmental destruction and geophysical hazards the insecurity created by armed conflict and limitations on journalistic freedoms and result from human in action and humanitarian crises *Australian National Bibliography: 1992* National Library of Australia, 1988 **APAIS 1999: Australian public affairs information service**, **Australia's Greatest Disasters** John Miller, 2010-04 Disasters have always occurred in Australia even before European settlement began in 1788 Such is the geography and climate of the

Great South Land that disasters such as bushfires cyclones storms floods drought and heatwaves are natural phenomena They also tend to be seasonal and can be successive bushfires follow periods of drought or heatwave and floods follow cyclones or storms The original inhabitants as well as those who came after the First Fleet have had to learn to live with these and to find ways to overcome the impacts Australia has also occasionally been affected by natural disasters not commonly associated with this part of the world including earthquakes tornadoes and landslides While most do not result in loss of human life or major damage they are significant owing to their rarity People tend to equate disasters with loss of human life and this book includes most of the disasters in Australia that have resulted in loss of life There have been a number with significant loss of life including Cyclone Mahina in 1899 the Ash Wednesday bushfires of 1983 the Gundagai floods of 1852 Cyclone Tracy in 1974 and the Granville bridge collapse in 1977 There have been also many where although fewer lives were lost there was a great damage toll on buildings and property such as the Newcastle earthquake in 1989 the Sydney hail storm of 1999 and the northern Tasmanian floods of 1929 Structural fires are also commonly placed in the disaster category because they are so costly in terms of fatalities injuries and damage Many people however don't include economic or agricultural impact among the criteria for disasters which means drought and heatwaves are often disregarded However these are synonymous with Australia and many have taken a great toll This book is part of Exisle Publishing's Little Red Books series Every title in the Little Red Books series provides an overview of key events people or places in Australian history They cover the essentials bringing the reader up to speed on the most important fascinating or intriguing facts Appealing to everyone from students to pensioners who've always wanted to know a bit about that they're an essential part of every Australian bookshelf
