Writing in Red Thomas W. Goldstein, 2017

In the German Democratic Republic words and ideas mattered both for legitimizing and criticizing the regime. No wonder then that the ruling SED party created a Writers Union to mold what writers publicly wrote and said. Its chief task was ideological: creating a socialist and antifascist culture. But it was also supposed to advance its members' professional interests and enable them to act as public intellectuals with a say in the direction of socialism. Many writers demanded that it pursue this second function as well, which brought it into conflict with the SED. This book explores how the union became a site for the contestation of writers' roles in GDR society with consequences well beyond the literary community. Union leaders, pressured by the SED or the secret police, usually acquiesced in enforcing regime demands, but by the 1980s many authors had adapted to the rules of the game, exploiting their union membership to insulate themselves from reprisal for their carefully worded critiques and, in so doing, beginning to break down limitations on public speech. The book explores how and why, in the 1970s, the Writers Union helped normalize relations between writers and state, yet over the course of the 1980s inadvertently aided the expansion of permissible speech, ultimately helping destabilize the East German system. Thomas W. Goldstein is Assistant Professor of History at the University of Central Missouri.

Women's Vision in Western Literature

Laurence M. Porter, 2005-02-28. From ancient Greece through the present day, women writers have confronted the male urge to make war by imagining communities in which intuitive bonding among individuals questions and replaces masculinist values of aggression and competition. *Women's Vision in Western Literature* traces the gender gap in literature from 600 B.C. to the present day through an examination of seven extraordinary women writers, from Sappho to Christa Wolf. Combining close readings with a comprehensive overview of the careers of these women, Porter shows how the threat, the experience, and the aftermath of war incite them to imagine tolerant, empathic communities. This careful consideration of these seven great writers brings to light an underappreciated aspect of Western women's writing. Starting with Sappho, Porter illustrates this ancient poet's ability to rewrite the Homeric war rhetoric to reflect a non-possessive love experience. Marie de France arranges traditional animal fables to imply an open-ended situation, ethics, according to the author, and Madame de Staël, in a Europe torn by Napoleonic conquests, advocates cross-cultural unions among countries. In the works of Mary Shelley, we see the warnings of the dangers of vainglorious, soulless technology, and Virginia Woolf depicts intuitive bonding beyond gender stereotypes amid the ruins of war and crumbling empire. He shows how Marguerite Yourcenar dreams of a new era of world peace after Hitler's defeat, and how Christa Wolf tries to cope with her country's Nazi past, even as she reaffirms European identity threatened by annihilations in nuclear conflict.
