*Pedology* R. Duchaufour,2012-12-06 This book is the first of two volumes intended to replace the old and now out of print *Precis de pedologie* the previous three editions of which were produced by the same publisher in 1960 1965 and 1970 It was apparent that the term *precis* which means that the text was necessarily condensed and summarised no longer corresponded with the present day situation for pedology has developed considerably in the past 10 years and it now makes use of the most modern and varied research techniques It has become an entirely separate discipline and has assumed at least in certain countries considerable importance In addition different schools of thought have developed and their sometimes contradictory viewpoints are presented at many international conferences which if valid conclusions are to be reached from them required considerable space for discussion Thus even by being very concise it was no longer possible to deal with the whole of soil science within the space of one volume so that a two volume format became a necessity As soil science is known to have two

fundamentally distinct aspects it has been easy to determine the contents of each volume and also to give each an identity and unity as well as enabling a different kind of presentation to be made in each case     *Barsortiment-Lagerkatalog* Koch, Neff & Oetinger & Co.; Koehler & Volckmar,1978     **Baden-Württemberg im Farbbild** Nikolas Benckiser,Otto Heuschele,Wolfgang Martin Schede,1965     *Borsenblatt für den deutschen Buchhandel* ,1966     Literatur-Katalog ,1969
