topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host city as well as its finest hotel The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel s unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul s cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War s first international businesses and demonstrates that the Hilton s role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space
