Schul-atlas über alle Theile der Erde und über das Weltgebäude Adolf Stieler, 1869 **A.E. & R.S. Bahamas Final Report** Bahamas Agricultural Research, Training, and Development Project, 1977 A Visit to The Bahamas from A to Z Veronica McFall, 2020-08-20 Meet Dato a Spanish English bilingual cat who loves to eat fish travel and learn facts Meet Vanessa Andrew and Evan three explorer kids who enjoy connecting with new people learning new languages sampling new foods and discovering new places Become immersed in The Bahamas a beautiful country filled with vibrant colors rich history and culture fascinating animals and wildlife interesting geography and deep national pride Join Dato the Fact Cat Vanessa Andrew and Evan on their journey through the letters of the alphabet and the islands of The Bahamas Written by first time author Veronica McFall with colorful illustrations by RJ Jenkins A Visit to The Bahamas from A to Z is for elementary school aged readers and their families Grand Bahama P. J. H. Barratt, 1972 This is the first comprehensive book about a strategically placed island which is unique in having only very recently achieved prominence after its sparse population had enjoyed a quiet untrammelled existence for hundreds of years Grand Bahama is the most northerly of the chain of islands that almost form a land bridge between Florida and Venezuela It is already the second most important island of the Commonwealth of the Bahamas At the nearest point it is less than sixty miles from Florida Aboriginal Indians occupied the island until its discovery by the Spaniards in 1512 when it was depopulated to be resettled only after 300 years The tourist potential was first exploited as recently as 1948 Although development was initially slow between 1961 and 1969 the volume of visitors grew from 40 000 to half a million and tourism is now one of the mainstays of the economy Today Grand Bahama is one of the most magnificent playgrounds of the world Although low lying the highest point is only 60 feet above sea level large areas have been cultivated and reclaimed on an ambitious scale and the present facilities for golf sailing and swimming are exceptional by any standards This development has been sensational In the once barren pine covered land the new city of Freeport has been built which has land valued at up to 80 000 an acre Freeport itself is the most important industrial city in the Commonwealth of the Bahamas with the added interest of being the only new town in the region financed by private enterprise a social and economic experiment of great significance that has raised many questions in the process such as the importance of private sector investment balancing the social mix of the population and the delicate matter of political relations between a private enterprise town and a parent government Resort and residential development has made the island the second largest in population in the Bahamas but for the most part an unspoiled tranquil beauty still characterises its environment as a whole The inland scenery has been enhanced by sensitively designed golf courses and the vast shimmering waterways that have been driven through the interior Few islands anywhere have been refashioned by man to this extent P J H Barratt a town planner in charge of the development of Freeport writes with first hand knowledge of the island in all its aspects Here is the island of the great shallows in the area of Columbus s historic landfall that is a holiday
