Abdo,2005 During the 19th century the United States and Europe were on the brink of a transition that would lead to the modern world In the middle of the Atlantic the Dabney family from Boston had settled on the small island of Faial in the Azores and quickly became involved in the political literary intellectual and religious changes taking place at that time on both sides of the Atlantic This book provides a rare glimpse of life from the point of view of some well known historical figures as well as some anonymous insiders creating a picture of individuals and events in the 19th century from a fresh perspective In some instances it fills in unsuspected gaps or provides different interpretations of what occurred in the story of the 19th century This American family at the crossroads of the Atlantic had an importance that was hidden behind the mists of the Atlantic **The Grey Undercurrent** Felix Schürmann,2023-04-03 By extending their voyages to all oceans from the 1760s onward whaling vessels from North America and Europe spanned a novel net of hunting grounds maritime routes supply posts and transport chains across the globe For obtaining provisions cutting firewood recruiting additional men and transshipping whale products these highly mobile hunters regularly frequented coastal places and islands along their routes which were largely determined by the migratory movements of their prey American style pelagic whaling thus

constituted a significant though often overlooked factor in connecting people and places between distant world regions during the long nineteenth century Focusing on Africa this book investigates side effects resulting from stopovers by whalers for littoral societies on the economic social political and cultural level For this purpose it draws on eight local case studies four from Africa s west coast and four from its east coast In the overall picture the book shows a broad range of effects and side effects of different forms and strengths which it figures as a grey undercurrent of global history
