Balkanization Of The West:

The Balkanization of the West Stjepan Mestrovic, 2004-08-02 This book takes the lid off the confused Western response to the Balkan war The author raises a series of timely and acute questions about the future of postmodernism and postcommunism [The Balkanization of the West](#) Stjepan Mestrovic, 1994 This text argues that the media have reduced the world to a collective voyeur passively watching monitoring and observing crimes against humanity in former Yugoslavia The Balkan war has produced the Balkanization of the West with the Western powers seemingly paralyzed by internecine warfare

Ohki-Close, 1999-03-25 Supranationalism in the New World Order argues that in the post Cold War distribution of global power and configuration of global players the European Union is just one among a growing number of regional regimes that are acquiring prominent roles in the process of global governance to some extent through the operation of differentiated zones of geo political management The EU is currently the most advanced and influential example of a regional regime by virtue of having the novel European Community at its core the EC uniquely being constructed around supranational institutions decision making and laws But the EU s uniqueness is unlikely to last The evident competitive advantages of supranational regional regimes in conjunction with the realism generally adopted by the various global players is conducive to the consolidation and proliferation of SRRs in a manner consistent with the neo functionalist perspective on the progress of the EU Other prospective SRRs include the Association of Southeast Asian Nations the East Asian Economic Caucus the South Asian Society for Regional Cooperation the North American Free Trade Area and the Andean Community It is argued that the emerging character of the global system will increasingly depend on SRRs the relationships among such organizations and accordingly the doctrine of supranationalism The book offers a distinctive way of representing the global system global processes and global developments with the help of a set of freshly articulated concepts The result is a novel but highly contentious treatise **Balkanization West Ebook** Mestrovic, 1994-06-03 **Imagining the Balkans** Maria

Todorova, 2009-04-15 If the Balkans hadn't existed they would have been invented was the verdict of Count Hermann Keyserling in his famous 1928 publication *Europe*. Over ten years ago Maria Todorova traced the relationship between the reality and the invention. Based on a rich selection of travelogues, diplomatic accounts, academic surveys, journalism, and belles lettres in many languages, *Imagining the Balkans* explored the ontology of the Balkans from the sixteenth century to the present day, uncovering the ways in which an insidious intellectual tradition was constructed, became mythologized, and is still being transmitted as discourse. Maria Todorova, who was raised in the Balkans, is in a unique position to bring both scholarship and sympathy to her subject, and in a new afterword she reflects on recent developments in the study of the Balkans and political developments on the ground since the publication of *Imagining the Balkans*. The afterword explores the controversy over Todorova's coining of the term **Balkanism**. With this work, Todorova offers a timely, updated, accessible study of how an innocent geographic appellation was transformed into one of the most powerful and widespread pejorative designations in modern history.

Inverting Balkanization Gergana Georgieva Hadzhieva, 2003 *The Future of Anthropology* Akbar S. Ahmed, 1995 Is anthropology relevant to our lives today? Does anthropology have anything to contribute in the coming time? How are anthropologists responding to the post-colonial, post-modernist world? Leading anthropologists attempt to answer these questions, identifying and exploring key issues where anthropology connects with the problems of the contemporary scene.
