Proceedings and Transactions of the Queensland Branch of the Geographical Society of Australasia ,1909      **Upside Down World** Penny Olsen,2010 Late eighteenth and early nineteenth century Eurocentric perceptions of natural history led to the flora and fauna of the new colony of New South Wales being viewed as deficient and inferior The swans of the colony were black and eagles white birds built shell strewn avenues of sticks to cavort in and parrots walked on the ground The mammals carried their young in a pouch and there were furred animals that laid eggs This miscellany of the curious fuelled the rage for Australian natural history amongst the upper classes of Europe bringing income and occasionally fame to its collectors and documenters On the ground in the colony it contributed to great change for the animals and in some cases extinction In *Upside Down World* author Penny Olsen documents how our scientific knowledge evolved using collectors and naturalists journals to enhance her stories      **A Grammar of Yidin** R. M. W. Dixon,1977-10-06 Professor Dixon examines the grammar of Yidin an Australian dying language through phonology syntax and of a mixed ergative type that cannot easily be accommodated in terms of standard syntactic theory      **Queensland Geographical Journal** ,1910      **Books in Print** ,1981      **Kiplinger's Personal Finance** ,1971-11 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics      Growing up on the Trobriand Islands in Papua New Guinea Barbara Senft,Gunter Senft,2018-05-22 This volume deals with the children s socialization on the Trobriands After a survey of ethnographic studies on childhood the book zooms in on indigenous ideas of conception and birth giving the children s early development their integration into playgroups their games and their education within their own little community until they reach the age of seven years During this time children enjoy much autonomy and independence Attempts of parental education are confined to a minimum However parents use subtle means to raise their children Educational ideologies are manifest in narratives and in speeches addressed to children They provide guidelines for their integration into the Trobrianders balanced society which is characterized by cooperation and competition It does not allow individual accumulation of wealth surplus property gained has to be redistributed but it values the fame acquired by individuals in competitive rituals Fame is not regarded as threatening the balance of their society      *Yagara Dictionary and Salvage Grammar* Karen Sullivan,Glenda Harward-Nalder,2024-03-12 Most English speakers in Australia know a few words of Yagara the Pama Nyungan language traditionally spoken in the area that now includes Brisbane and Ipswich For example Australian English yakka work comes from the Yagara verb yaga to work However no fluent native speakers of Yagara remain The current volume compares the written records of Yagara to facilitate revitalisation of the spoken language Part 1 Grammar introduces the Yagara sources which are then compared to extract a picture of Yagara s structure its sounds its words and its grammar Attention is also given to the system of kinship terms moieties and totems Part 2 Dictionary contains the most complete Yagara English dictionary to date with over 2 200 entries the original source

*Bambi* Felix Salten, 2013-02-19 The adventures of a young deer in the forest as he grows into a beautiful stag **Herd Book - British Goat Society** British Goat Society, 1955 **The Trobriand Islanders' Ways of Speaking** Gunter Senft, 2010-07-19 Bronislaw Malinowski claimed in his monograph *Argonauts of the Western Pacific* that to approach the goal of ethnographic field work requires a collection of ethnographic statements characteristic narratives typical utterances items of folk lore and magical formulae as a corpus inscriptionum as documents of native mentality This book finally meets Malinowski's demand Based on more than 40 months of field research the author presents documents and illustrates the Trobriand Islanders own indigenous typology of text categories or genres covering the spectrum from ditties children chant while spinning a top to gossip songs tales and myths The typology is based on Kilivila metalinguistic terms for these genres and considers the relationship they have with registers or varieties which are also metalinguistically distinguished by the native speakers of this language Rooted in the ethnography of speaking paradigm and in the anthropological linguistics linguistic anthropology approach the book highlights the relevance of genres for researching the role of language culture and cognition in social interaction and demonstrates the importance of understanding genres for achieving linguistic and cultural competence In addition to the data presented in the book its readers have the opportunity to access the original audio and video data presented via the internet on a special website which mirrors the structure of the book Thus the reader can check the transcriptions against the original data recordings This makes the volume particularly valuable for teaching purposes in general Austronesian Oceanic documentary and anthropological linguistics and ethnology **Cross-Cultural Pragmatics** Anna Wierzbicka, 2009-09-04 This book which can be seen as both a research monograph and a text book challenges the approaches to human interaction based on supposedly universal maxims of conversation and principles of politeness which fly in the face of reality as experienced by millions of people refugees immigrants crosscultural families and so on By contrast to such approaches which can be of no use in crosscultural communication and education this book is both theoretical and practical it shows that in different societies norms of human interaction are different and reflect different cultural attitudes and values and it offers a framework within which different cultural norms and different ways of speaking can be effectively explored explained and taught The book discusses data from a wide range of languages including English Italian Russian Polish Yiddish Hebrew Japanese Korean and Walmatjari an Australian Aboriginal language and it shows that the meanings expressed in human interaction and the different cultural scripts prevailing in different speech communities can be described and compared in a way that is clear simple rigorous and free of ethnocentric bias by using a natural semantic metalanguage

based on empirically established universal human concepts As the book shows this metalanguage can be used as a basis for teaching successful cross cultural communication and education including the teaching of languages in a cultural context
