Bibliotheca Washingtoniana William Spohn Baker,2018-01-04 Excerpt from *Bibliotheca Washingtoniana* A Descriptive List of the Biographies and Biographical Sketches of George Washington This life history has been written so often and has appeared in so many forms from the slight sketch to the ponderous quarto from the school book of a single volume to the finished production of many that but few are aware of the number and how constantly it has been added to It is proper therefore that some attempt should be made to impart such information and by devoting this volume to that purpose we shall endeavor to furnish a list of these sketches and biographies so that the student and reader may know what to refer to and what to make useful While the list has been made as complete as was possible we do not necessarily claim it to be exhaustive especially as regards the sketches but at the same time feel assured that for all practical purposes it will be found sufficient The chronological arrangement of titles has prevented the grouping together of all the editions of particular works which

would have been desirable but as such information can be had by reference to the Index that sequence certainly the best has been adhered to About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
