Occultism and Common-Sense Beckles Willson, 2020-08-24 When I first ventured into the wide and misty domain of Occultism with a light heart I set forth and an open mind My sole aim was to ascertain as far as the means at the disposal of an ordinary man with little of the mystic in his composition would allow what degree of probability attached to published phenomena which the ordinary laws of Nature as most of us understand them could not satisfactorily explain At the threshold of my inquiry one prominent and as it seemed to me disconcerting fact confronted me namely that although for a couple of generations supernatural manifestations had been promiscuously exhibited before the public challenging full investigation and inviting belief although almost every day the newspapers report some striking case of spirit apparition or materialisation coincident dreams clairvoyance trance utterances or possession often seemingly well attested yet in spite of all this testimony academic science continued to dispute the very basis of such phenomena Any investigator must needs recognise here a very anomalous situation
