Communicating Technology:

Communication Technology Everett M. Rogers, 1986-06-11 The industrial nations of the world have become Information Societies Advanced technologies have created a communication revolution and the individual through the advent of computers has become an active participant in this process The human aspect therefore is as important as technologically advanced media systems in understanding communication technology The flagship book in the Series in Communication Technology Society Communication Technology introduces the history and uses of the new technologies and examines basic issues posed by interactive media in areas that affect intellectual organization and social life Author and series co editor Everett M Rogers defines the field of communication technology with its major implications for researchers students and practitioners in an age of ever more advanced information exchange The Factors and Behaviors Associated with Legislator Use of Communication Technology Joe West, Jingjing Gao, Sojin Jang, 2021-08-23 Few will doubt the importance of the role that communication technology played in American politics in 2020 The Factors and Behaviors Associated with Legislator Use of Communication Technology examines the various factors and behaviors associated with legislator use of communication technology Offering both macro and micro level perspectives as well as quantitative and qualitative data analyses a broad perspective of the role that communication technology plays in driving legislator behavior is provided Building a theoretical structure this book begins with an examination of how communication technology can destabilize the policymaking process and offers an overview of media and policy process theories and legislator roles and the association of these roles with the use of communication technology Moving to the micro level the authors present quantitative and qualitative evidence associated with legislator behaviors associated with the use of communication technology including compromise behaviors and political ideological polarization closing with an examination of the use of communication technology by legislators during the 2020 COVID 19 pandemic **User-Centered Technology** Robert R. Johnson, 1998-10-29 Winner of the 1999 Best Book presented by the National Council of Teachers of English NCTE Awards for Excellence in Technical and Scientific Communication User Centered Technology presents a theoretical model for examining technology through a user perspective Johnson begins with a historical overview of the problem of technological use from the ancient Greeks to the present day a problem seen most clearly in historical discussions of rhetoric theory The central portion of the book elaborates on user centered theory by defining three focal issues of the theory user knowledge human technology interaction and technological determinism Working from an interdisciplinary perspective Johnson uses rhetoric theory to present a definition of user knowledge human factors engineering to illuminate the ideological presuppositions built into technology design and history philosophy and sociology to explain technological determinism possibly the greatest impediment to user centered technology development in modern times The latter part of the book applies user centered theory in two contexts the nonacademic sphere where the writing and design of computer user

documentation is discussed and the academic sphere through a discussion of how user centered concepts might drive university technical communication and composition curricula
