Communicate God's Way Rian Seipier, 2020-02-10 Words are powerful very powerful The words we use can uplift encourage comfort teach and guide the people around us and often will have long lasting effects on your family friends and peers How you use your words define you as a person a leader as a friend coworker etc We speak about sixteen thousand words a day almost six million words a year enough to recite the Bible over seven times a year How do we plan on using these sixteen thousand words every day God tells us how to use these words to maximize our communication skills The truth is there are over seven billion people in the world and not one thinks that same way you do Therefore to communicate effectively we must know the thoughts attitudes emotions and spiritual levels of the people with whom we interact We do this through caring and listening with a godly attitude This book describes how we as Christians and quite frankly non Christians can effectively communicate with virtually everyone they speak to God has much to say about the words we use and how to use them and we discuss these throughout the book The Word says in James 1:26 If anyone considers himself religious and yet does not keep a tight rein on his tongue deceives himself and his religion is worthless Our religion is not worthless through the Holy Spirit it is our responsibility to use our words wisely This book will help you build better relationships be more a more effective communicator and to further the Gospel of Christ by living and talking the way God wants you to Use those sixteen thousand words you speak every day to help guide encourage teach comfort edify spread the Gospel and improve the life of those around you This book will help you do just that

Missiology and the Social Sciences

Edward Rommen, Gary Corwin, 1996-09-15 Missiology and the Social Sciences Contributions Cautions and Conclusions Missiology draws from several sources These include God's revelation in Holy Scripture historical creeds and theology past and present missionary experiences and various social sciences that help us to understand diverse cultural and religious dynamics But how exactly do these sources relate to one another How do we balance and prioritize the contributions of each Missiology and the Social Sciences answer these questions with scholarly care On the one hand it's unthinkable that missionaries would not use the social sciences such as anthropology and linguistics How else would we translate the Bible and learn about other cultures On the other hand some writers warn of the subtle danger that social sciences could undermine biblical authority Cultural bias also might affect social science research and hinder our ability to discern what God is doing around us The contributors in this book help readers understand the debate and its many practical implications It equips missionaries to engage the social sciences in more thoughtful ways that can bear gospel fruit
