Kearney, 2025-03-10 Calls for reformation were widespread across the medieval Roman Catholic Church but few were as nuanced or philosophically rich as the lifelong work of Cardinal Nicholas of Cusa 1401 1464 Cusa centralized the coincidentia oppositorum the coincidence of opposites in our knowledge of God and the mystical institution of the Church In his book Michael R Kearney traces Cusa s historical impact on philosophy of communication and communication ethics with an eye toward the health of institutions in a postmodern moment of cynicism and decline Cusa loved the church and fought passionately for its reform energized by the clouded vision of a God who is beyond opposites This champion of dialogic reformation offers churches and communities an unfinished task with a unity of contraries at its heart upholding local

narrative ground with tenacious loyalty while working in an increasingly large world Dilthey and the Narrative of History Jacob Owensby,1994 Although he never produced a comprehensive statement of his own theory of historical understanding Wilhelm Dilthey 1833 1911 has played a crucial role in the development of modern phenomenology and philosophy of history Drawing from Dilthey s reflections a systematic philosophy of history Jacob Owensby offers a groundbreaking introduction to the full range of Dilthey s work In his clear and accessible account Owensby considers several vital but only recently published texts and many of Dilthey s writings that have never before been translated into English **Calvin O. Schrag and the Task of Philosophy After Postmodernity** Calvin O. Schrag,2002 This collection of essays is a critical document in Continental philosophy reflecting its recent history its present state and its debt to Calvin O Schrag It begins with an overview of philosophy s role and responsibility or task and of Schrag s contributions to it written from the perspective of a resolute defender of the phenomenological tradition that Schrag s work has extended and reconfigured The essays are organized around the four conceptual figures widely considered Schrag s most significant and original philosophical achievements transversal rationality the self after post modernity the fourth cultural value sphere and communication praxis The authors focus on topics ranging from Cartesian rationality to Foucauldian rational relativism from transcendence in relation to the self to the Schragean self s connections with discourse action and community from religion s disruptive presence in contemporary philosophy to recent developments in the philosophy of language The Philosophy of Paul Ricoeur Lewis Edwin Hahn,1995 Paul Ricoeur widely regarded as the foremost living phenomenologist has helped to make the term hermeneutics a household word His writings cover a wide range of topics from the history of philosophy literary criticism and aesthetics to metaphysics ethics religion semiotics linguistic structuralism and psychoanalysis Ricoeur s most important works including *Freedom and Nature* *Freud and Philosophy* *The Conflict of Interpretations* *Time and Narrative* *The Symbolism of Evil* and *Oneself as Another* have attracted enthusiastic readers from many disciplines and from every major cultural milieu across the surface of the globe Hermeneutics and Deconstruction Hugh J. Silverman,Don Ihde,1985-09-30 *Hermeneutics and Deconstruction* provides an assessment of two dominant modes of thinking and writing in continental philosophy today It addresses central issues in the theory of interpretation and in the strategies of textual reading Placed in the context of contemporary philosophical practice this volume raises the question of the end of philosophy and offers different ways of understanding how the question of closure in philosophy can itself open up a whole range of philosophical activities Special attention is given to the practice of interpretation in the areas of science perception and literature and to the dimensions of hermeneutic understanding with respect to being life and the world An investigation of how history is interpreted and read as a text provides access to one of the significant differences between hermeneutic understanding and deconstructionist practice A section is devoted to the controversy concerning the value and the achievement of deconstruction The writings of Heidegger and Derrida are juxtaposed and examined And the volume concludes with several

indications of new directions in continental philosophy and various versions of what a post Derridean reading might entail

Communication Ethics: Between Cosmopolitanism and Provinciality Kathleen Glenister Roberts, Ronald C. Arnett, 2008
 This volume occasions a dialogue between major authors in the field who engage in a conversation on cosmopolitanism and provinciality from a communication ethics perspective There is no consensus on what constitutes communication ethics cosmopolitanism or provinciality the task is more modest and diverse and began with contributors being asked what the bias of their work suggests or offers for understanding the theme Communication Ethics Between Cosmopolitanism and Provinciality Rather than responding authoritatively each essay acknowledges the contributor s own work This book offers no answers but invites a conversation that is more akin to a beginning a joining an admission that there is more than me us or my kind of people theory or wisdom The book will be an excellent resource for instructors and for upper level undergraduate and graduate courses in communication
