## **Community Civics And Rural Life:**

*Community Civics and Rural Life* Arthur William Dunn, 2020-09-28      *Community Civics and Rural Life* Arthur William Dunn, 2019-12-05 In *Community Civics and Rural Life* Arthur William Dunn explores the dynamic interplay between civic engagement and rural community development in the early 20th century. Dunn employs a clear didactic prose style that makes complex ideas accessible to a wide audience with a focus on practical applications of civic theory. The book is enriched by case studies and vivid descriptions of rural life, providing a rich context that highlights the importance of local governance and community participation. Dunn's work emerges against the backdrop of the Progressive Era, a time marked by social reform and a push for greater public involvement in governance.      *Community Civics and Rural Life (Classic Reprint)* Arthur W. Dunn, 2015-07-11 Excerpt from *Community Civics and Rural Life*. Let youth help shape the world while the vision splendid is still before its eyes. Jerome K. Jerome: A year ago the author published his *Community Civics and Rural Life* in the Introduction to which it was stated that Training for citizenship in a democracy is a fundamentally identical process in all communities whether urban or rural. But if it really functions in the life of the citizen this process must consist largely in deriving educational values from the actual civic situations in which he normally finds himself. Moreover instruction that relates to matters that lie beyond immediate experience must nevertheless be interpreted in terms of that experience if it is really to have meaning. At least half of the young citizens of America live in an environment that is essentially rural. Hence their need for civics instruction that takes its point of departure in and refers back to a body of experience that differs in many ways from that of the urban citizen. The present book is fundamentally the same book as *Community Civics and Rural Life* but being prepared for the use of pupils whose experience is urban it presents in accordance with the principle stated in the foregoing paragraph certain essential differences. The controlling ideas around which all the subject matter of both books is organized are: 1. The common purposes in our community life. 2. Our interdependence in attaining these common purposes. 3. The consequent necessity for cooperation. and 4. Government as an agency by which to secure cooperation in attaining common ends. Team work through government for the achievement of common purposes may be said to be the motif that runs prominently through the entire text. A few of the chapters in the present book stand practically as written for the rural book with only slight revision as for example the opening chapter the chapters on Our National Community and A World Community VII and VIII and the concluding chapters on governmental organization except for the addition of a chapter on Our City Government. Dunn,2023-07-18 This pioneering work explores the relationship between civic education rural development and social reform Arthur William Dunn argues that the key to improving life in rural communities is to educate citizens about their rights and responsibilities and to provide them with the skills and knowledge needed to participate fully in civic life His insights are as relevant today as they were a century ago This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      *Community Civics and Rural Life; Rural Education Series* Arthur William Dunn,2023-02-03 Reproduction of the original      **Community Civics and Rural Life** Arthur William Dunn,2017-08-29 This book like the author s earlier one *The Community and the Citizen* is a community civics text Two purposes led to the preparation of this second volume The first was to produce a text that would meet the needs of pupils and teachers who live outside of the environment of the large city Training for citizenship in a democracy is a fundamentally identical process in all communities whether urban or rural But if it really functions in the life of the citizen this process must consist largely in deriving educational values from the actual civic situations in which he normally finds himself Moreover instruction that relates to matters that lie beyond immediate experience must nevertheless be interpreted in terms of that experience if it is really to have meaning At least half of the young citizens of America live in an environment that is essentially rural Hence their need for civics instruction that takes its point of departure in and refers back to a body of experience that differs in many ways from that of the urban citizen This does not imply that urban conditions should be ignored in the civic education of the rural citizen On the contrary one of the things that every citizen should be led to appreciate is the interdependence of country and city in a unified national life In the present volume emphasis is given to this interdependence For this reason and because of the fundamental principles which have controlled the development of the text it is believed that the book may perform a distinct service even in city schools
