Community Of Faith:

Women, Church, and Leadership: New Paradigms Eunjoo Mary Kim, Deborah Beth Creamer, 2012-04-06 This book is about leadership a scholarly and pastoral response to the urgent demand for the renewal of the contemporary Christian church It challenges readers to articulate the identity and vision of the church in new ways and encourages them to revitalize their ministry with fresh insight and passion from women s perspectives The eight essays written by female scholars in relation to various areas of theological study and the nine pastoral responses to the essays written by ministers from seven different denominations based on their experiences of actual ministerial settings provide new paradigms of church leadership theologically profound practically relevant and historically timely This volume a product of a collaborative process between academia and church promises to be a most useful resource to renew the leadership of the church and its vocational commitment to the transformation of the church and society

Amalorpavadas to the Catholic Biblical Movement Antony Christy Lourdunathan, 2018-04-11 Essay from the year 2013 in the subject Theology Biblical Theology course Biblical Catechesis language English abstract Christianity is not merely a set of religious principles it is a covenant in the same lines of the covenant of the People of Israel for whom the Decalogue the principles of their life was a Testament In a similar fashion for a Christian the Holy Bible is the Testament of one s covenant with Christ and the Abba whom He revealed in the Holy Spirit Rightly are its two parts called the Old and the New Testaments Bible is the foundation of the faith experience of an individual who professes to be a Christian and it is in itself the faith expression of generations of people whose faith the individual makes one s own However the place of this testament today within the faith expression of an individual or the community has undergone a long process of evolution in history Within the Christian community of the original times it was merely used by the elders or the priests during worship Later it was used by those persons who sought to teach and guide the communities and individuals to instruct them from the examples and the teachings of the people who were originally instruments of the faith experience recorded in the Scriptures Further later it was considered a privilege to hold the Scriptures and read or proclaim from it There was a moment in history in which the community of faith felt the need to assert that the Scriptures originated from the community which was trying to record the foundational experiences for the community so that the community of faithful could find their ground in those experiences and that the Scriptures should go back to the hands of the community and not remain merely in the hands of a select few This feeling and conviction gave rise to a movement in history towards making the Bible the most important factor within the ambit of making sense of one s faith and its expressions in life and worship
