Community Is The Classroom:

Building Community in Schools Thomas J. Sergiovanni, 1999-09-21 Sergiovanni documents cases of schools that have successfully reinvented themselves in order to establish a sense of community as the foundation for all curriculum and instruction decisions Teachers administrators teacher educators and communities seeking advice and motivation for restructuring schools for the 21st century would be well advised to consult this work Choice Provides the practitioner with both a theoretical blueprint with which to build learning communities and a rich supply of benchmark illustrations to use as prototypes thought provoking and challenging NASSP Bulletin Both in and out of schools people are experiencing a loss of community In this book Thomas J Sergiovanni explains why a sense of community is so vital to the success of any school and shows teachers parents and administrators what they can do to rebuild it Filled with case studies and other school examples Building Community in Schools provides the necessary intellectual framework for understanding the need to create communities that are inclusive meaningful and democratic The Community as the Classroom, the Community in the Classroom Kathleen Mollohan, 1981 The activities published in this guide have two things in common 1 they each make use of community resources either inside or outside the classroom and 2 they are short term and complete in themselves They are intended to enrich each of the subject areas and expand the educational experience of all students from the Introduction

The Community Classroom Avery Nightingale, 2024-09-05 In The Community Classroom Learning and Growing Together Avery Nightingale explores a transformative approach to education that transcends traditional classroom boundaries Rooted in the concept of a human centric learning environment this book delves into the experiences of sisal farmers and their children as they learn mathematics in a community based setting Nightingale emphasizes the value of social learning where knowledge is shared and applied within the very environment where life unfolds By bringing education to the farming grounds this approach challenges the conventional reliance on technology and formal classrooms offering a richer more connected experience The Community Classroom provides a compelling case for rethinking education in low income rural areas highlighting the potential for community driven inclusive learning to foster real change **The Importance of Developing Community in the Classroom** Laurel Miltenberger, 2010 **Building Character and Community in the Classroom, K-3** Ronda Howley, 1997 Offers fun and meaningful activities for students to learn to care for one another and to develop into socially responsible individuals Community in the Classroom Barbara Helen Gessner, 2001 Community Building in the Online Classroom Dominique Moyse Steinberg, 2021-06-15 This book offers theories principles and strategies for developing the online classroom as a deep and full learning community that students feel is truly about by and for them To be immediately useful it offers practical ideas for helping students to actively contribute to shaping classroom affairs toward relevance and meaning However in order to elevate the discussion beyond the primer level the book anchors those ideas in social and educational principles and theories As social learning theories posit

deep and full learning occurs when our full cognitive emotional and social selves are engaged This book mitigates the challenges to such engagement in the virtual classroom arguing that a strong sense of community ownership will enhance students ability to successfully master content Although not all strategies are group based the use of groups both large and small is a primary way of helping online students to become active on their own behalf in building a learning community that meets their needs Strategies outlined here focus primarily on promoting shared authority visibility and voice and on encouraging student disclosure of needs and peer connection
