[The Jews of Modern France](#) Paula E. Hyman, 2023-04-28 The Jews of Modern France explores the endlessly complex encounter of France and its Jews from just before the Revolution to the eve of the twenty first century In the late eighteenth century some forty thousand Jews lived in scattered communities on the peripheries of the French state not considered French by others or by themselves Two hundred years later in 1989 France celebrated the anniversary of the Revolution with

the largest most vital Jewish population in western and central Europe Paula Hyman looks closely at the period that began when France's Jews were offered citizenship during the Revolution She shows how they and succeeding generations embraced the opportunities of integration and acculturation redefined their identities adapted their Judaism to the pragmatic and ideological demands of the time and participated fully in French culture and politics Within this same period Jews in France fell victim to a secular political antisemitism that mocked the gains of emancipation culminating first in the Dreyfus Affair and later in the murder of one fourth of them in the Holocaust Yet up to the present day through successive waves of immigration Jews have asserted the compatibility of their French identity with various versions of Jewish particularity including Zionism This remarkable view in microcosm of the modern Jewish experience will interest general readers and scholars alike

Continuity, Commitment, and Survival Sol Encel, Leslie Stein, 2003-11-30 Issues of

continuity survival and identity have generated apparently unending debates throughout the Jewish world for centuries While similar issues arise in all Jewish communities there are significant differences between them This collection was designed to highlight differences as well as similarities by devoting a chapter to each of seven countries Argentina Australia Canada France South Africa the United Kingdom and the United States In four communities those in Australia Canada the United Kingdom and the United States debates about continuity are mainly concerned with the loss of Jewish identity through assimilation In Argentina and South Africa the main issue is with physical survival in the face of chaotic social conditions In France although the situation is less dire the community feels threatened by the rise of xenophobic political movements and the hostility of Arab groups Apart from external factors all the contributors review debates over the relative importance of religion and ethnic identity and the contrasting positions taken by religious leaders and secularists While the study offers no clear cut answers it does aim to broaden the debate by exposing national differences
