

Compact Disc

Heitarō Nakajima, Hiroshi Ogawa

Compact Disc:

Official Gazette of the United States Patent and Trademark Office United States. Patent and Trademark Office, 1999

Origins and Successors of the Compact Disc J.B.H. Peek, J.W.M Bergmans, J. A. M. M. van Haaren, Frank

Toolenaar, S.G. Stan, 2008-12-28 In March 1979 a prototype of a Compact Disc CD digital audio system was publicly presented and demonstrated to an audience of about 300 journalists at Philips in Eindhoven The Netherlands This milestone effectively marked the beginning of the digital entertainment era In the years to follow the CD audio system became an astonishing worldwide success and was followed by successful derivatives such as CD ROM CD RW DVD and recently Blu ray Disc Today around the thirtieth anniversary of the milestone it is taken for granted that media content is stored and distributed digitally and the analog era seems long gone This book retraces the origins of the CD system and the subsequent evolution of digital optical storage with a focus on the contributions of Philips to this field The book contains perspectives on the history and evolution of optical storage along with reproductions of key technical contributions of Philips to the field
