**The Doctor's Secret** Heidi Cullinan, 2019-04-23 Cullinan weaves themes of racism and Asian culture family pressures and the value of friends home and love into a deeply satisfying romance Publishers Weekly Starred Review Copper Point Medical Book One The brilliant but brooding new doctor encounters Copper Point's sunny nurse next door and nothing can stand in the way of this romance Dr Hong Wei Wu has come to Copper Point Wisconsin after the pressures of a high powered residency burned him out of his career before he started Ashamed of letting his family down after all they've done for him he plans to live a quiet life as a simple surgeon in this tiny northern town His plans however don't include his outgoing kind and attractive surgical nurse Simon Lane Simon wasn't ready for the new surgeon to be a handsome charmer who keeps asking him for help getting settled and who woos him with amazing Taiwanese dishes There's no question Dr Wu is flirting with him and Simon is flirting back The problem is St Ann's has a strict no dating policy between staff which means their romance is off the table unless they bend the rules But a romance that keeps them literally in the closet can't lead to happy ever after Simon doesn't want to stay a secret and Hong Wei doesn't want to keep himself removed from life not anymore To secure their happiness they'll have to change the administration's mind But what other secrets will they uncover along the way about Copper Point and about each other

**From Adam to Omega** A.R. Roberts, 2020-09-24 Due to government secrecy the public never learned of the numerous UFO incursions at strategic nuclear weapons installations where they disabled ICBM missiles and even activated their launch codes They never heard about UFO encounters reported by police officers civilian and military pilots and astronauts and they were never told the real facts of the Roswell event The volume of evidence suggesting we are not alone and probably never have been is overwhelming It suggests an alien agenda to accelerate the evolution of the human race To understand what is happening requires knowledge of what is going on today as well as the past particularly during the biblical era Much has been learned through the Freedom of Information Act from whistleblowers and government and military officials This book connects the dots suggesting what aliens have been doing for the past several thousand years
