 Gørrill,Jill Journeaux,2018-01-23 Whilst both collective and collaborative drawing is being widely explored internationally  
 both within and beyond educational institutions there is surprisingly little serious research published on the topic This  
 realisation led to the first international Drawing Conversations Symposium accompanied by the Drawn Conversations  
 Exhibition at Coventry University UK in December 2015 The two events drew a strong and global response and brought  
 together a wide range of participants including academics artists researchers designers architects and doctoral students This  
 book considers what happens and how when people draw together either in the form of a collaboration or through a  
 collective process The contributions here serve to establish the field of collective and collaborative drawing as distinct from  
 the types of drawing undertaken by artists designers and architects within a professional context The volume covers  
 conversations through the act of drawing collaborative drawing drawing communities and alternative drawing collaborations
