Palombo,1999 The Emergent Ego offers an approach to the psychoanalytic process based on the findings of the scientific revolution now in progress breaking new ground by turning to the sciences of complexity for a new perspective on the nature of the evolutionary process The author hypothesizes that adaptive change in the patient results from the coevolution of the therapeutic dyad in the analytic ecosystem The application of complexity theory to the psychoanalytic process extends the power of psychoanalytic theory to account for the full range of events that characterize the therapeutic relationship
