Badgers at My Window Phil Drabble, 1989-01-01      Badger Daniel Heath Justice, 2014-10-15 Fierce menacing and mysterious badgers have fascinated humans as living animals abstract symbols or commercial resources for thousands of years often to their detriment With their reputation for determined self defense they have been brutalized by hunters and sportsmen while their association with the mythic underworld has made them idealized symbols of earth based wisdom and their burrowing habits have resulted in their widespread persecution as pests In this highly illustrated book Daniel Heath Justice provides the first global cultural history of the badger in over thirty years From the iconic European badger and its North American kin to the African honey badger and Southeast Asian hog badger Justice considers the badger s evolution and widespread distribution alongside its current often imperiled status throughout the world He travels from natural history and life in the wild to the folklore legends and spiritual beliefs that badgers continue to inspire while also exploring their representation and exploitation in industry religion and the arts Tracing the complex and contradictory ways in which this fascinating animal endures Badger will appeal to anyone interested in a deeper understanding of these much maligned creatures
