(Bear in mind that the Bible was written 2,000–3,000 years ago)

## THE BIBLE

The earth is a sphere  
(Isaiah 40:22).

Incalculable number of stars  
(Jeremiah 33:22).

Free float of earth in space  
(Job 26:7).

Creation made of invisible  
elements (Hebrews 11:3).

Each star is different  
(1 Corinthians 15:41).

Light moves  
(Job 38:19,20).

Air has weight  
(Job 28:25).

Winds blow in cyclones  
(Ecclesiastes 1:6).

Blood is the source of life  
and health  
(Leviticus 17:11).

Ocean floor contains deep  
valleys and mountains  
(2 Samuel 22:16;  
Jonah 2:6).

Ocean contains springs  
(Job 38:16).

When dealing with disease,  
hands should be washed  
under running water  
(Leviticus 15:13).

## SCIENCE NOW

The earth is a sphere

Incalculable number of stars

Free float of earth in space.

Creation made of invisible  
elements (atoms).

Each star is different.

Light moves.

Air has weight.

Winds blow in cyclones.

Blood is the source of life  
and health.

Ocean floor contains deep  
valleys and mountains.

Ocean contains springs.

When dealing with disease,  
hands should be washed  
under running water.

## SCIENCE THEN

The earth was a flat disk.

Only 1,100 stars.

Earth sat on a large animal.

Science was ignorant on  
the subject.

All stars were the same.

Light was fixed in place.

Air was weightless.

Winds blew straight.

Sick people must be bled.

The ocean floor was flat.

Ocean fed only by rivers  
and rain.

Hands washed in still water.

Brown,2010-02-26 In their highly selective and literal reading of Scripture creationists champion a rigidly reductionistic view of creation in their fight against soulless scientism Conversely many scientists find faith in God to be a dangerous impediment in the empirical quest for knowledge As a result of this ongoing debate many people of faith feel forced to choose between evolution and the Bible s story of creation But as William Brown asks which biblical creation story are we talking about Brown shows that through a close reading of biblical texts no fewer than seven different biblical perspectives on creation can be identified By examining these perspectives Brown illuminates both connections and conflicts between the ancient creation traditions and the natural sciences arguing for a new way of reading the Bible in light of current scientific knowledge and with consideration of the needs of the environment In Brown s argument both scientific inquiry and theological reflection are driven by a sense of wonder which in his words unites the scientist and the psalmist Brown s own wonder at the beauty and complexity of the created world is evident throughout this intelligent well written and inspirational book **The Bible and Science** Eddie D. Leach,2014-10-02 The author has been a Christian since his youth

Upon discovering a love for science in grade school he pursued that interest throughout his entire life. Sadly he found disagreement and conflict between the Christian only and Science only viewpoints. Since he was both a Christian and a scientist he had to resolve in his mind these differences for his own spiritual and scientific well being. For more than sixty years he has carefully formulated the words and concepts in this book that he hopes and prays will help others reach an understanding that both the Bible and the discoveries in science are true and reconcilable. God does not lie to us or mislead us. God is responsible for both His Bible and His Creation. Thus any conflicts we find in the study of these two revelations from God result from our inability to interpret and understand properly either one or the other or some of each. To more fully understand God one must study both God's words the Bible and the scientific discoveries of the footprints and fingerprints He left during the creation process that we are now able to find and interpret. We must correlate His words and His works to more fully understand Him. We must always be aware that our first impressions may not be entirely correct and that we must always continue to compare all our findings and interpretations with each other in an effort to seek and achieve the greater truth.

**Modern Science in the Bible** Ben Hobrinc, 2011-02-08. Modern Science in the Bible shows that the Bible is not out of date but that it was in fact thousands of years ahead of science when it was written. Used as a reference tool or merely to underline the trustworthiness of the Bible, this book succinctly demonstrates hard scientific facts from the Bible that modern science has only recently discovered. Ben Hobrinc, although a biologist, writes in layman's terms to describe current scientific debates and shows where scientific theories or conclusions differ from the Bible and offers explanations of the alleged differences. In *Modern Science in the Bible*, Hobrinc not only defends the Bible, he lets others share his astonishment about the relevance of biblical rules. The book underlines the reliability of the Bible in the field of science and presents hard scientific facts that are structured around themes such as combating epidemics, hygiene, nutrition, and evolution.

**Science and the Bible : Volume 1** Donald B. DeYoung, 1994-06-01. The book's thirty dynamic, easy, and safe science experiments illustrate the laws of nature, teach Bible principles, and affirm God's power as Creator to kids and teens.

**The Biblical Basis for Modern Science** Henry Morris, 2020-02-11. The Bible is indeed a book of science revealed by God. We live in a scientific age, and the proliferation of scientific knowledge and the resulting technologies seem almost endless. Scientific discoveries and developments, however, can be a danger as well as a blessing to mankind. The modern world is desperately in need of God's own wisdom concerning the purpose and meaning of true science. When you move beyond modern assumptions and false preconceptions, the Bible is found to not only reveal a thoroughly modern perspective on the real facts and principles of science but also to provide wisdom and guidance concerning its proper role in human life. Biology is the science of life, and Christ himself is life. Geology is the science of the earth, and He is the Creator of the ends of the earth. We also could speak of other sciences, but all must ultimately be ascribed to Christ. True knowledge of any component of His creation must depend ultimately on the knowledge of Christ, and His Word reveals biblical insights for cosmology, astronomy, physics,

thermodynamics chemistry geology paleontology biology anthropology and more Brings to light how scientific and statistical evidence rationally evaluated favor God over evolution *The Harmony Of The Bible With Science: Or, Moses And Geology* Samuel Kinns,2023-07-18 The Nature of Creation Mark Harris,2014-09-19 It is generally assumed that science and religion are at war Many now claim that science has made religious belief redundant others have turned to a literalist interpretation of biblical creation to reject or revise science others try to resolve Darwin with Genesis The Nature of Creation addresses this complex debate by engaging with both modern science and biblical scholarship together Creation is central to Christian theology and the Bible and has become the chosen battleground for scientists atheists and creationists alike The Nature of Creation presents a sustained historical investigation of what the creation texts of the Bible have to say and how this relates to modern scientific ideas of beginnings The book aims to demonstrate what science and religion can share and how they differ and ought to differ **The Hidden Power of the Bible** Ernest Holmes,2006-08-03 The inspiration of Ernest Holmes has reached hundreds of thousands of readers through his classic works many of which are just now becoming available in paperback Originally published in 1929 as *The Bible in Light of Religious Science* this exegesis on the hidden lessons of some of Scripture s best known verses has been largely unavailable and even unknown since the 1940s Indeed this edition comes as a brand new work to the many readers of Ernest Holmes It is fully reset and redesigned published for the first time with an index and includes a new preface to frame the book for the contemporary reader **God, Science and the Bible** Arnold V Page,2023-06-10 This book explains why conventional science and the Bible conflict over the origin of the universe and life on planet Earth It includes the evidence for Jesus Christ s resurrection and the author s own experiences of God s reality **The Physics and Philosophy of the Bible** James Frederick Ivey M.D.,2017-12-05 Albert Einstein taught that imagination is more important than knowledge probably having come to this conclusion through a realization that almost all science represents belief faith as opposed to knowledge It should come as no surprise then that science especially modern physics with its theories of relativity and quantum mechanics has revolutionized thinking about the likelihood of the existence of God In *The Physics and Philosophy of the Bible* author and physician James Frederick Ivey explains how science particularly quantum mechanics and relativity aided by Platos philosophy and the history of Jewish people can be utilized in order to virtually prove that God exists that he is unique and that he is the biblical deity Ultimately an exploration of Christian philosophy and apologetics including discussions of Christian history secular retorts the intersection of science and faith and the relationship between physics and ultimate truth *The Physics and Philosophy of the Bible* demonstrates that apologists are very close to the non necessity of having to deal with whether God exists or not From Platos earliest philosophical insights to the most groundbreaking discoveries in contemporary physics we can find the fingerprints of God that prove He is with us And God seeks us just as we seek him for he desires cognitive individuals with whom he can enjoy mutual love and intimacy Faith, Form, and Time Kurt P.
