## **Bible And The Ballot Box:**

**The Bible And The Ballot Box** James L Guth, John C Green, 2019-07-11 The 1988 elections abruptly brought the importance of religion in American politics into sharp focus Two ministers Pat Robertson and Jesse Jackson sought their party's presidential nominations by mobilizing key religious constituencies In addition a host of other religious groups from the Catholic bishops to the Jewish community sought to influence the election outcome More than ever religion was a critical factor in the ballots cast by millions of Americans As the twentieth century draws to a close it is clear that religion will continue to be a powerful factor in electoral politics This volume investigates the many ways religion influenced electoral politics in 1988 tracing the links between elites activists and voters in the major religious traditions Special attention is paid to the leaders of Protestant Catholic and Jewish organizations to important sets of activists such as ministers party leaders and campaign contributors and to the behavior of key voting blocs including white evangelical and mainline Protestants black Protestants Catholics and Jews

**The American Ballot Box in the Mid-Nineteenth Century** Richard Franklin Bense, 2004-04-12 During the middle of the nineteenth century Americans voted in saloons in the most derelict sections of great cities in hamlets swarming with Union soldiers or in wooden cabins so isolated that even neighbors had difficulty finding them Their votes have come down to us as election returns reporting tens of millions of officially sanctioned democratic acts Neatly arrayed in columns by office candidate and party these returns are routinely interpreted as reflections of the preferences of individual voters and thus seem to unambiguously document the existence of a robust democratic ethos By carefully examining political activity in and around the polling place this book suggests some important caveats which must attend this conclusion These caveats in turn help to bridge the interpretive chasm now separating ethno cultural descriptions of popular politics from political economic analyses of state and national policy making
