Jenks,2023-06-20 This collection of essays explores the impact of Jesus within and beyond Christianity including his many afterlives in literature and the arts social just and world religions during the past two thousand years and especially in the present global context This third volume focuses on the diverse afterlives of Jesus within contemporary culture and the arts Moving beyond the explicitly religious afterlives traced in the first two volumes this set of essay traces selected afterlives of Jesus within Indigenous cultures around the Pacific as well as in the arts and in the contested fields of gender and sexuality The contributors include religion scholars from diverse cultural contexts as well as faith practitioners reflecting on Jesus within their own particular context While the essays are all grounded in critical scholarship reflective practice or both they are expressed in nontechnical language that is accessible to interested nonspecialists Arts Across Cultures Soh Anne M. Y. Soh,2022 In today s highly connected world many people are still unfamiliar with the good news of Christianity How do we invite them to think afresh about the Christian message and the Christian faith What is the role of the arts in mission How could we as artists explore ideas about mission pp ppThis book seeks to address and answer these questions by showing the potential of the arts to impact the life and mission of the church It suggests how the arts can enhance worship and witness and help transform the wider world It demonstrates what being a missional artist means how the two parts of that vocation fit together and examines the nurture and training such artists need pp ppThe book looks at how the performing arts such as music and drama the visual arts digital media and the use of creative arts workshops can form a rich tapestry to bring out the Christian faith in church and beyond Against the backdrop of global flows that reach into every local community it connects the arts to mission in culturally relevant ways by revealing how Christians from different contexts can work together drawing on the arts across cultures to reimagine the Christian faith so as to speak powerfully to contemporary peoples and cultures in our ever changing world pp ppNot just designed for artists and mission partners the book is also for pastors and leaders of churches and mission agencies to illustrate how the arts and artists can be embraced in creative ways to fulfill the task of mission in our increasingly glocalized world pp ppWritten by practitioners with firsthand experience of these issues this book challenges the reader to widen their horizons in thinking about the vast possibilities for the role of the arts across cultures the arts in mission and missional artists in the sharing of the good news Theologies of Power and Crisis Stephen Pavey,2011-07-01 Theologies of Power and Crisis provides a case study for Eric Wolf s research directive to better comprehend the interplay of cultural webs of meaning and material webs of

power forms of social life More specifically the book demonstrates how theological discourse and practice engage with historical and material relations of power It has been normative to speak of power in terms of political and economic processes and theology in terms of interpretive and symbolic experiences This work breaks new ground by linking theological ideas with political economic processes in terms of the structural relations of power Ethnographically this research investigates the theological processes of Hong Kong Chinese Christians during a period of significant social change and crisis precipitated by the return of Hong Kong to China in 1997 It shows how local Christians and Christian institutions mediated the significant regional national and transnational forces of political economic change by connecting theological practice to the structural relations of power The Christian response was a contested process closely intertwined with the broader contested processes of social organization This study develops an understanding of Christianity that goes beyond ecclesiastical hegemony to encompass struggles over human practice meaning and representation in relation to the changing political economic context These findings implicate religious ideas and practice as significant to an understanding of social inequalities and powerlessness by connecting ideologies to material conditions Christian ideas may be used to legitimize an oppressive social order or they may be used to liberate those who are oppressed Issues related to the policies and practice of development should take seriously the role of religious beliefs and practices
