Established research and new perspectives address vital themes in this comprehensive text, including the shifting politics of gender, ethical and technological trends in gendered media, and gender in daily life. Comprising 39 chapters by a team of international contributors, the Handbook is divided into six thematic sections: Gendered lives and identities, Visualizing gender, The politics of gender, Gendered contexts and strategies, Gendered violence and communication, Gender advocacy in action. These sections examine central issues, debates, and problems, including the ethics and politics of gender as identity, impacts of media and technology, legal and legislative battlegrounds for gender inequality and LGBTQ human rights, changing institutional contexts, and recent research on gender violence and communication. The final section links academic research on gender and communication to activism and advocacy beyond the academy. *The Routledge Handbook of Gender and Communication* will be an invaluable reference work for students and researchers working at the intersections of gender studies and communication studies. Wood, 2006-07-19 Publisher Description **Communicating Power and Gender** Deborah Borisoff, James W. Chesebro, 2011-03-30 As a perceptive and outstanding assessment, *Communicating Power and Gender* examines the relationships between gender and power and how they are linked to and transformed by the communication process. Within this discussion, a host of correlations emerge, crossing social, cultural, historical, political, and racial spheres. In order to anchor their discussion, Borisoff and Chesebro define the terms gender, power, and communication, which provides an operational platform from which to view fundamental issues such as the effects of stereotyping and verbal and nonverbal communication by gender. The authors also consider four contexts that shape and influence gender socialization and sex role constructions.
