Language impairment in childhood and youth: presentation, diagnosis, assessment, and empirically validated treatment. As many as half of children and adolescents presenting for mental health services have language impairments, often undiagnosed. This book offers a clear and comprehensive description of language impairment emerging in childhood and its implications for clinical practice with children and adolescents. The book is filled with many clinical pearls and examples of the way language impairment impacts on the child's symptom picture and influences treatment. After discussing DSM-IV and the planned DSM-5 criteria, it then goes on to provide the reader with an easy-to-follow plan on how to conduct the assessment with the child and parents and the steps to take in initiating treatment. Unique are the recommended modifications to empirically validated treatments for language-impaired children with comorbid anxiety or disruptive behavior disorders.
