Production of the 'Self' in the Digital Age Yasmin Ibrahim, 2018-06-11. This book investigates the relationship between the self and screen in the digital age and examines how the notion of the self is re-negotiated and curated online. The chapters examine the production of the self in postmodernity through digital platforms by employing key concepts of ubiquity, the everyday disembodiment and mortality. It locates self-production through ubiquitous imaging of the self and our environments with and through mobile technologies and in terms of its embeddedness in our everyday lives. In this innovative text, Yasmin Ibrahim explores technology's co-location on our corporeal body, our notions of domesticity and banality, our renewed relationship with the screen, and our enterprise with capital, as well as the role of desire in the formation of the self. The result is a richly interdisciplinary volume that seeks to examine the formation of the self online through its renewed negotiations with personalised technologies and with the emergence of social networking sites. Situationist International Anthology, 2024-10-08. The Situationist International Anthology is the most comprehensive and accurately translated collection of situationist writings in English. In 1957, a few European avant-garde groups came together to form the Situationist International. Picking up where the dadaists and surrealists had left off, the situationists challenged people's passive conditioning with carefully calculated scandals and the playful tactic of détournement, rerouting, hijacking. Seeking a more extreme social revolution than was dreamed of by most leftists, they developed an incisive critique of the global spectacle, commodity system, and of its Communist pseudo-opposition, and their new methods of agitation helped

trigger the May 1968 revolt in France Since then situationist theories and tactics have continued to inspire radical currents all over the world This volume presents a rich variety of articles leaflets graffiti and internal documents ranging from experiments in psychogeography to lucid analyses of the Watts riot the Vietnam War the Prague Spring the Chinese Cultural Revolution and other crises and upheavals of the sixties For this new edition all the translations have been fine tuned and the bibliography has been updated to include comments on dozens of newer books by and about the situationists
