fledgling communist regime unleashed a radical and brutal campaign to collectivize agriculture in this largely agrarian country following the Soviet model Peasants under Siege provides the first comprehensive look at the far reaching social engineering process that ensued Gail Kligman and Katherine Verdery examine how collectivization assaulted the very foundations of rural life transforming village communities that were organized around kinship and status hierarchies into segments of large bureaucratic organizations forged by the language of class warfare yet saturated with vindictive personal struggles Collectivization not only overturned property relations the authors argue but was crucial in creating the Party state that emerged its mechanisms of rule and the new persons that were its subjects The book explores how ill prepared cadres themselves unconvinced of collectivization s promises implemented technologies and pedagogies imported from the Soviet Union through actions that contributed to the excessive use of force which Party leaders were often unable to control In addition the authors show how local responses to the Party s initiatives compelled the regime to modify its plans and negotiate outcomes Drawing on archival documents oral histories and ethnographic data Peasants under Siege sheds new light on collectivization in the Soviet era and on the complex tensions underlying and constraining political authority

Collectivization of Agriculture in Eastern Europe Irwin T. Sanders,2021-10-21 Collectivization of agriculture is an essential feature of the Communist program for the satellite countries of Eastern Europe It is a means of extending state control of agriculture as well as the basis for developing large scale industrial and military power Irwin T Sanders has edited this excellent group of papers by specialists on Eastern Europe and American rural social scientists which collectively serve as an analysis of efforts to regiment the East European peasant To those for whom the terms collective farm and collectivization have little meaning this book will provide an actual picture of Communist effort to organize millions of peasants into a standard pattern of production and control Such regimentation these writers show has led to less efficient agriculture from the standpoint of total production although it facilitates the delivery of produce to state economic enterprises

Pryor,2014-07-14 Reorganizing the agricultural sector into large scale state and collective farms was the most radical transformation of economic institutions implemented by Marxist governments Frederic Pryor provides perspective on this unique experiment by comparing in a systematic and original fashion the changes in the organization of agriculture in all of the world s Marxist nations This approach allows not only a clearer understanding of the major lines of agricultural policy and organization in these nations but also a keener insight into the reasons underlying the variations among them What have been the doctrinal elements that have led to collectivization Why has the process of collectivization been so different in various nations How have the farms been organized both internally and within the larger economy How has the performance of agriculture differed between the various Marxist nations and comparable capitalist nations And what are the difficulties in reversing collectivization and moving back toward private agriculture In answering these questions The Red and the Green draws on a vast number of primary and secondary sources from many nations as well as from extensive interviews with farmers agricultural officials and specialists in more than a dozen Marxist nations Among books dealing with problems of communist economy this study is unrivaled in its broad scope combined with careful institutional and statistical analysis Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Communist Party of the Soviet Union** Vyacheslav Mikhaylovich Molotov,1929
