Intended Audience The book was written for students who aspire to work as community organizers and all those who practice organizing and community development whether as volunteers or professionals

Community Organizing Ross J. Gittell, Avis Vidal, 1998-06-10 Community Organizing provides new insight into an important national challenge how to stimulate the formation of genuinely community based organizations and effective citizen action in neighborhoods that have not spawned these efforts spontaneously Since Robert Putnam's identification of the role of social capital in regional governance and economic development there has been a virtual industry of interest and action created around the implications of his findings for the development of low income communities Yet there remains a paucity of detailed empirical effort testing and refining his ideas This book attempts to fill this gap Community Organizing distills lessons from a national demonstration program that employed a novel approach to community organizing consensus organizing Consensus organizing enhances social capital building both stronger internal ties and capacity in low income communities and fostering new relations bridges between residents of low income communities and larger metropolitan area support communities Using evaluation research and detailed comparative study of community development activity in three diverse demonstration sites Ross Gittell and Avis Vidal identify key elements of building social capital which strongly affect community development comprehension of community development credibility of effort and participants confidence competence and constructive critiques of efforts Other elements are more relevant to program management and implementation and include communication among participants congruence of program effort management of inherent contradiction and adjusting implementation to reflect local context This book describes the limits and promise of building social capital and will be of interest to community development students and professionals

**Community Organizing and Development** Herbert J. Rubin, Irene Rubin, 2001 This is the long awaited revision of a well known and widely used text in community organizing The text provides a comprehensive introduction to the wide variety of approaches that guide social change social activism and community building work Community Organizing and Development links various theories of organizing to the techniques and tactics of practice It is vividly illustrated by dozens of real life practice examples It balances descriptions of protest actions and visible projects with the behind the scenes routines that make such work possible The text describes and illustrates the skills and organizational techniques needed to undertake successful community projects such as converting a former crack house into safe clean affordable housing

Ways of Contending David Micah Greenberg, 2004 This thesis explores community organizing by Community Development Corporations CDCs the different outcomes achieved by organizing campaigns and the factors that contribute to their successes and failures Among organizing outcomes I focus not only on policy victories and physical or economic improvements to communities but also on the ways that collective action produces changes in local political institutions Using rich qualitative and extensive quantitative data from organizing campaigns by ten

CDCs I show how claims about the role of racial and ethnic difference in community and about the need for conflict in creating community change find acceptance or resistance from political institutions While institutional resistance to a campaign s claims about community makes it more difficult for campaigns to succeed this resistance also indicates the possibility that successful organizing will enact changes to local institutions I find that CDCs won campaigns and with success enacted some type of impact on political institutions by coordinating mobilization throughout their activities and departments and by including activists in governance and decision making

*Contesting Community* James DeFilippis, Robert Fisher, Eric Shragge, 2010-05-19. What do community organizations and organizers do and what should they do? For the past thirty years, politicians, academics, advocates, and activists have heralded community as a site and strategy for social change. In contrast, *Contesting Community* paints a more critical picture of community work which, according to the authors, in both theory and practice has amounted to less than the sum of its parts. Their comparative study of efforts in the United States, the United Kingdom, and Canada describes and analyzes the limits and potential of this work. Covering dozens of groups, including ACORN Brooklyn's Fifth Avenue Committee and the Immigrant Workers Centre in Montreal, and discussing alternative models, this book is at once historical and contemporary, global and local. *Contesting Community* addresses one of the vital issues of our day: the role and meaning of community in people's lives and in the larger political economy.

**Revitalizing Urban Neighborhoods** William Dennis Keating, Norman Krumholz, Philip Star, 1996. Since the 1950s and the advance of urban renewal, local governments and urban policy have focused heavily on the central business district. However, such development has all but ignored the inner-city neighborhoods that continue to struggle in the shadows of high-rise America. This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development. Together, they show how urban neighborhoods can and must be preserved as economic, cultural, and political centers.
