American heritage **The Chinese and the Iron Road** Gordon Chang, Shelley Fisher Fishkin, 2019-04-30 Essays examining the Chinese worker experience during the construction of America's Transcontinental Railroad The completion of the transcontinental railroad in May 1869 is usually told as a story of national triumph and a key moment for American Manifest Destiny The Railroad made it possible to cross the country in a matter of days instead of months paved the way for new settlers to come out west and helped speed America's entry onto the world stage as a modern nation that spanned a full continent It also created vast wealth for its four owners including the fortune with which Leland Stanford would found Stanford University some two decades later But while the Transcontinental has often been celebrated in national memory little attention has been paid to the Chinese workers who made up 90 percent of the workforce on the Western portion of the line The Railroad could not have been built without Chinese labor but the lives of Chinese railroad workers themselves have been little understood and largely invisible This landmark volume explores the experiences of Chinese railroad workers and their place in cultural memory The Chinese and the Iron Road illuminates more fully than ever before the interconnected economies of China and the US how immigration across the Pacific changed both nations the dynamics of the racism the workers encountered the conditions under which they labored and their role in shaping both the history of the railroad and the development of the American West Praise for The Chinese and the Iron Road This timely and essential volume preserves the humanity of the often ignored and forgotten immigrant worker while also uncovering just how important Chinese American railroad workers were in the making of America and its place in the world Erika Lee author of The Making of Asian America Gordon H Chang and Shelley Fisher Fishkin's meticulously researched and beautifully written book fills a critical gap in our nation's history The Chinese and the Iron Road brings to life the stories of workers who defied incredible odds and gave their lives to unite these states into a nation David Henry Hwang Tony Award winning playwright of The Dance and the Railroad and M. Butterfly Destined to become the go-to resource about Chinese railroad workers in the American West Madeline Hsu author of The Good Immigrants How the Yellow Peril Became the Model Minority Deeply researched and richly detailed The Chinese and the Iron Road brings to life the Chinese immigrants whose work was essential to the railroad's construction Thomas Bender author of A Nation Among Nations America's Place in World History **Asian Children's Literature and Film in a Global Age** Bernard Wilson, Sharmani Patricia Gabriel, 2020-03-06 This volume provides a key analysis of Asian children's literature and film and creates a dialogue between East and West and between the cultures from which they emerge within the complex symbiosis of their local national and transnational frameworks In terms of location and content the book embraces a broad scope including contributions related to the Asian American diaspora China India Indonesia Iran Japan Malaysia the Philippines South Korea Sri Lanka and Taiwan Individually and collectively these essays broach crucial questions What elements of Asian literature and film make them distinctive both within their own specific culture and within the broader Asian area What aspects link them to these genres in other parts of the world How have they

represented and shaped the societies and cultures they inhabit What moral codes do they address underpin or contest The volume provides further voice to the increasingly diverse and fascinating output of the region and emphasises the importance of Asian art forms as depictions of specific cultures but also of their connection to broader themes in children s texts and scholarship within this field
