Journal of the Society for Psychological Research ,1885 *Working with Dreams in Psychotherapy* Clara E. Hill,1996-05-03 Working with dreams in therapy can help clients establish a focus and reach core issues quickly and can play an important clinical role in both brief and long term therapeutic relationships

This accessible volume integrates the latest research on sleep and dreaming with a cognitive experiential psychotherapeutic perspective providing a comprehensive guide to dream interpretation. In clear jargon free prose elucidated by extensive case material the author presents a three stage model of dream interpretation based on the premises that dreams reflect waking life that their meaning is best understood in a collaborative effort between client and therapist and that both cognitions and emotions are important in this process. An Appendix contains a reproducible self guided manual on dream interpretation featuring step by step instructions and worksheets. This Appendix is an ideal resource for therapists to use with clients.

Sleep Monsters and Superheroes Clare R. Johnson, Jean M. Campbell, 2016-09-26 World renowned contributors across several disciplines reveal how dreams can aid and empower children in daily life. Children can feel powerless in waking life a fact that is often reflected in their dreams. This book shows how to take an active role in guiding children's dreams to help grow their confidence and improve their coping skills for real life difficulties. Contributors from across various fields provide simple techniques to help children utilize dreamwork as a conduit for creative discovery and empowerment. Each chapter includes case studies and methods for working in practical ways with children explaining what may trigger nightmares for children and how monster dreams can be guided to become superhero dreams. Essays encompass a spectrum of children's dreams with experts discussing dreams of trauma, dreams as a reflection of emotional and physical development, dreaming in the community, spiritual or religious dreams, lucid dreams, dreams during wartime and dreams of death among others. Throughout the work the narrative discusses the use of dreams as teaching aids for use in art therapy, storytelling and self empowerment.
