The Secret World of Dream Children Peter Brighton, 2021-08-23 Plant World is where Dream Children of any age appear Dream children are children that humans mentally think of or dream about It could be a newly married couple imagining what their future child will be like Or it could be a child dreaming of having a brother or sister and imagining what they will do together It may also be a child thinking of what they will be like when they grow up Most Dream children arrive with a creative skill that they start using almost straight away Or they land somewhere and Uncle Twotrees gives them a name to describe their arrival location Such as Dungo the smelliest person in plant world who arrived sitting on a heap of horse manure Uncle Twotrees can also spot what they are good at He then gives them a name that describes their skill or character such as Dribbler the footballer Wiggy the hairdresser Bing Bong the musician Rollo the gymnast I met the first plant world character called Uncle Twotrees After my English garden center was damaged by a hurricane You can read about the meeting in Book1 The Secret World of the Plant People He introduced me to many characters that had been in the Plant world for many centuries I then moved from England to the Dominican Republic in the Caribbean for a long holiday I then met many dream children that had unique skills and talents that I have added to this collection of Dream children s stories In the next book The Secret World of Dream Animals and Plants I began meeting in my dreams animals birds bees plants and trees that arrive and begin exploring the plant world As well as pets who introduced me to their owners What I didn t realize until I met all living things in Plant world Is that they all have dreams imagination and thoughts that they can all tune into They also communicate with each other using their minds You can read about Mind Talking in Book 1 I hope that after reading these stories You will begin to meet your own dream children and write about them Dream Children DREAM CHILDREN, 1864 *Dream Children...short Stories* Gail Godwin, 1977 **Children's Dreams** Claudio Colace, 2018-04-17 This book aims to present a study on the actuality and empirical value of Freuds dream theory even if through the analysis of a specific part of it the hypotheses about childrens dreams It provides a systematic description of Freuds observations on child dreaming and presents the results obtained from four empirical studies on childrens dreams that the author conducted during the span of a decade These studies two conducted in school settings one in a home setting and one based on a questionnaire completed by parents allow an empirical judgment on Freuds main hypotheses on child dreaming the hypotheses on formal aspect of childrens dreams the relationship between dream bizarreness and development of the superego functions and the issue of wish fulfilment dreams The author concludes that it is possible to test empirically Freuds hypothesis on the early forms of dreaming and that this test is not irrelevant for an empirical judgment of certain more general statements of Freuds dream theory e g the dream censorship hypothesis Dream Children, a Reverie Charles Lamb, 1902 **Stories of Sunshine and Funtime of Wonder and Thunder of Mystery and Magic for the Young to Grow On** R Kirby Gary R Kirby, Gary R Kirby, 2009-11 Stories to open your child s eyes wide To grow and wheel their minds
