The Orchestration of the Arts — A Creative Symbiosis of Existential Powers M. Kronegger,2013-03-09 Regardless of the subject matter our studies are always searching for a sense of the universal in the specific Drawing etchings and paintings are a way of communicating ideas and emotions The key word here is to communicate Whether the audience sees the work as laborious or poetic depends on the creative genius of the artist Some painters use the play of light passing through a landscape or washing over a figure to create an evocative moment that will be both timeless and transitory The essential role of art remains what is has always been a way of human expression This is the role that our participants concentrate on as they discuss art as the expression of the spirit a creative act through which the artist makes manifest what is within him Spirit suggests the unity of feeling and thought Avoiding broad generalities our participants address specific areas in orchestration with music architecture literature and phenomenology Profs Souiller Scholz Etlin Sweetser Josephs show us at what point art is an intimate profound expression and the magic of a civilization as a whole springing from its evolving thoughts and embodying ideals such as the Renaissance the Baroque Modernism and at what point it reflects the transformation of a particular society and its mode of life      **Reading Dante Gabriel Rossetti** Brian Donnelly,2016-03-03 A revolutionary figure throughout his career Dante Gabriel Rossetti s work provides a distinctly revolutionary lens through which the Victorian period can be viewed Suggesting that Rossetti s work should be approached through his poetry Brian Donnelly argues that it is both inscribed by and inscribes the development of verbal as well as visual culture in the Victorian era In his discussions of modernity aestheticism and material culture he identifies Rossetti as a central figure who helped define the terms through which we approach the cultural productions of this period Donnelly begins by articulating a method for reading Rossetti s poetry that highlights the intertextual relations within and between the poetry and paintings His interpretations of such poems as the Mary s Girlhood sonnets the sonnet sequence The House of Life and The Orchard Pit in relationship to paintings such as The Girlhood of Mary Virgin and Ecce Ancilla Domini shed light on Victorian ideals of femininity on consumer culture and on the role of gender hierarchies in Victorian culture Situating Rossetti s poetry as the key to all of his work Donnelly also makes a case for its centrality in its representation of the dominant discourses of the late Victorian period faith sex consumption death and the nature of representation itself      Poetry in the Making Daniel Tyler,2020-11-19 Poetry in the Making investigates the compositional practices of Victorian poets as made evident in the autograph manuscripts of their poems Written in an accessible and stimulating style the book offers careful readings of

individual drafts paying attention to the revisions cancellations interlineations trials of rhyme and form and sometimes the large structural changes that these documents reveal The book shows how manuscript revisions offer insights into the creative priorities and decisions of major Victorian poets Wordsworth Tennyson the Brownings Clough Hopkins Christina Rossetti Swinburne and Yeats and they investigate ideas of composition in the period particularly the uneasy balance between inspiration and labour The book testifies to the care that poets exercised at the smallest levels of their craft and demonstrates that the drafts reward an equally close attention on the part of the critic Collectively the chapters develop a survey of how Victorian poets experienced and understood their own creativity setting abstract claims about inspiration and craftsmanship against their own practical experiences The book responds to and extends a renewed interest in manuscript sources at the present time that has been stimulated in part by the increased availability of digital and facsimile editions For a long time scholarly interest in nineteenth century literary manuscripts has been dominated by editorial and theoretical concerns This book testifies to the value for criticism of poetic drafts establishing the significance of revision and of manuscript studies for the field of Victorian poetry and for literary scholarship more generally
