Caste System:

Caste system and case studies # indian_society Bhaskar Pandey,2019-10-15 The caste system in India is the paradigmatic ethnographic example of caste It has origins in ancient India and was transformed by various ruling elites in medieval early modern and modern India especially the Mughal Empire and the British Raj It is today the basis of educational and job reservations in India The caste system consists of two different concepts varna and jati which may be regarded as different levels of analysis of this system The caste system as it exists today is thought to be the result of developments during the collapse of the Mughal era and the rise of the British colonial regime in India The collapse of the Mughal era saw the rise of powerful men who associated themselves with kings priests and ascetics affirming the regal and martial form of the caste ideal and it also reshaped many apparently casteless social groups into differentiated caste communities go through the book you can have a piece of very deep knowledge about caste and politics past and till date **Western Foundations**

of the Caste System Martin Fákrek,Dunkin Jalki,Sufiya Pathan,Prakash Shah,2017-07-07 This book argues that the dominant descriptions of the caste system are rooted in the Western Christian experience of India Thus caste studies tell us more about the West than about India It further demonstrates the imperative to move beyond this scholarship in order to generate descriptions of Indian social reality The dominant descriptions of the caste system that we have today are results of originally Christian themes and questions The authors of this collection show how this hypothesis can be applied beyond South Asia to the diasporic cultures that have made a home in Western countries and how the inheritance of caste studies as structured by European scholarship impacts on our understanding of contemporary India and the Indians of the diaspora This collection will be of interest to scholars and students of caste studies India studies religion in South Asia postcolonial studies history anthropology and sociology **Indian Caste System** R.K. From Ancient to Modern** Nadiia

Kudriashova, 2019-10-15 Seminar paper from the year 2017 in the subject Sociology Individual Groups Society grade MA Oregon State University language English abstract This paper analyses India's caste system from Ancient to modern During the 20th and the beginning of the 21st centuries many countries of the East developed along the path of modernization of social political and socio economic life In some states this process was interrupted by social explosions which led to a rollback to the past Others appeared capable of finding a viable balance between traditional and modern values In both cases specific political systems emerged which are characterized by the coexistence of Western democratic principles and traditional social institutions Thus in India on the one hand the involvement of the caste in political life led to some transformation of this ancient social structure and retained its position in modern society on the other it created such a phenomenon as democracy of the castes Castes jati are formed on the basis of a related self organization they have a different origin but most of them go back to archaic tribes and tribal fragments they are characterized by endogamy hereditary profession originality of culture Ideological substantiations of the caste mode of communication are directly related to the fundamental concepts of Hinduism dharma karma and sansara which describe Indian ideas about the laws of the existence of the Universe and nature Modern Indian society is distinguished by its phenomenal mosaic composition Numerous and diverse linguistic ethnic confessional caste groups not only coexist but they are intertwined in the fabric of a social organism Indians identity is usually vague its different variants come to the fore in different contexts they overlap and complement each other Entire communities do not have an unambiguous scientific nomination
