*Sustainable Tourism IX* J. Casares, F. Pineda, 2020-09-28 Today tourism is an important component of development not only in economic terms but also for knowledge and human welfare Tourism today is an activity accessible to a growing number of people The phenomenon has many more advantages than disadvantages New forms of economic development and increasing wealth of human societies depend on tourism Our knowledge of the world now includes a strong component due to tourism Human welfare has physiological and psychological elements which tourism promotes both because of the enjoyment of knowing new territories and increasing contacts with near or far away societies and cultures The tourism industry has nevertheless given rise to some serious concerns including social costs and ecological impacts Many ancient local cultures have practically lost their identity Their societies have orientated their economy only to this industry Both the natural and cultural rural or urban landscapes have also paid a high price for certain forms of tourism These problems will persist if the economic benefit is the only target leading to economic gains that eventually become ruinous It is also important to consider that visitors nowadays are increasingly demanding in cultural and environmental terms Never before have transport and communication links been so important as today Natural ecosystems are now a rarity on the planet and ecologists talk today about socio ecosystems Given this tourism and environmental education are facing a major challenge Tourism also plays an important role in the natural environmental changes that are strongly affected by technological and social developments Natural changes are inherent in the Earth s ecosystem the ecosphere Also technological and social changes are inherent to mankind the noosphere and are now becoming widespread Cities are growing rapidly and industry requires increasingly larger areas Many traditional rural areas are being abandoned However

many historic agricultural districts have maintained or even recovered their local population numbers through intelligent strategies of tourism focused on nature and rural culture Natural landscapes and biodiversity are becoming increasingly appreciated The tourism industry must be able to respond to these aspirations The 9th International Conference on Sustainable Tourism had the aim of finding ways to protect the natural and cultural landscape through the development of new solutions which minimise the adverse effects of tourism A selection of the papers presented at the meeting form this volume

*The Thirsty Arabia* William Percy, 2023-05-02 A closeted first attempt to present the complexities and elegance of the Islamic faith and the prophet Muhammad on the English stage *Thirsty Arabia* was written over a century before the first English translation of the Qur'an was published Despite this shortfall in primary sources about Islam this comedy incorporates with unbiased research a wealth of theological and cultural details Information flowed into Britain from Muslim countries alongside general trade in goods after Pope Pius V excommunicated Elizabeth I in 1570 but trade was halted shortly after this play was written in 1603 The narrative is launched when Muhammad declares he will destroy all mortals in Arabia for their sins in forty days with a drought Muhammad's angelic council objects that there might be good people in the region worth saving so Muhammad allows Harut and Marut to travel across Arabia disguised as humans to attempt to find any do-gooders to save Arabia The main romantic entanglement across this plot is the unsuccessful courtship of Marquess of the Deserts Epimenides by most of the eligible bachelors including two imams Caleb and Tubal the wealthy magician astrologer Geber the two disguised angels Harut and Marut and Muhammad himself While most of the characters are distracted with love the Arabian people are dying of thirst and fraudsters such as avu work to capitalize on this desperation with tricks such as selling water licenses Spirits magic time travel and fortune telling are used to gain favor and preferment while angels and good spirits punish evil doers The Aristotelian Square of Opposition in a logic game the angels play with Muhammad is only one of the many educational and entertaining devices The poetic wooing love songs and witty refusals alone are sufficient for readers to explore the surprises along this narrative An extraordinary inherently fascinating and entertaining drama that is enhanced with expert notations and commentaries by the editor and translator Anna Faktorovich A unique and recommended addition to community college and university library English Drama Literature collections and supplemental curriculum studies lists Midwest Book Review Clint Travis March 2021 Plot and Staging Text Terms References Questions Exercises
