The Dancing Universe Marcelo Gleiser, 2012-09-04 Available again with a new preface a physicist's exceptionally clear summary of 2 500 years of science and a fascinating account of the ways in which it often does intersect with spiritual beliefs Kirkus Reviews **The Dancing Universe** Gustavo E. Morcate, 2001 **Trance Formation** Robin Sylvan, 2013-10-08 Robin Sylvan combines colorful firsthand accounts extensive interviews with ravers and cutting edge scholarly analysis to paint a compelling portrait of global rave culture as an important new religious and spiritual phenomenon that also serves as a template for mapping the future evolution of new forms of religion and spirituality in the twenty first century

Renewing the Process of Creation Bradley Shavit Artson, 2015-09-21 In this daring blend of Jewish theology science and Process Thought theologian Rabbi Bradley Shavit Artson explores our actions through Judaism and the sciences as dynamically interactive and mutually informative The Prophet and the Astronomer Marcelo Gleiser, 2003 Gleiser explores the shared quest of ancient prophets and today's astronomers to explain the strange phenomena of our skies from the apocalypse foretold in Revelations to modern science's ongoing identification of multiple cataclysmic threats 37 illustrations Adventure, 1923 **The Goddess in Hindu-Tantric Traditions** Anway Mukhopadhyay, 2018-04-20 The Great Goddess in her various puranic and tantric forms is often figured as sitting on a corpse which is identified as Shiva as Shava God Shiva the consort of the Devi and an iconic representation of the Absolute without attributes the Nirguna Brahman Hence most of the existing critical works and ethnographic studies on Shaktism and the tantras have focused on the theological and symbolic paraphernalia of the corpses which operate as the asanas seats of the Devi in her various iconographies This book explores the figurations of the Goddess as corpse in several Hindu puranic and Shakta tantric texts popular practices folk belief systems legends and various other cultural phenomena based on this motif It deals with a more intricate and fundamental issue than existing works on the subject how and why is the Devi herself figured as a corpse in the Shakta texts belief systems and folk practices associated with the tantras The issues which have been raised in this book include how does death become a complement to life within this religious epistemology How does one learn to live with death thereby lending new definitions and new epistemic and existential dimensions to life and death And what is the relation between death and gender within this kind of figuration of the Goddess as death and dead body Analysing multiple mythic narratives hymns and scriptural texts where the Devi herself is said to take the form of the Shava the corpse as well as the Shakti who animates dead matter this book focuses not only on the concept of the theological equivalence of the Shava Shiva as corpse and the Shakti Energy in tantras but also on the status of the Divine Mother as the Great Bridge between the apparently irreconcilable opposites the mediatrix between Spirit and Matter death and life existence in stasis and existence in kinesis This book makes an important contribution to the fields of Hindu Studies Goddess Spirituality South Asian Religions Women and Religion India Studies in Shaktism and Tantra Cross cultural Religious Studies Gender Studies Postcolonial Spirituality

Morse,2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our behavior in day to day life really influence what hapens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse s subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this conclusion Near death and out of body experiences experiments creating apparitions research attempting to weight the soul and the wide range of ancient and modern spiritual concepts are all covered in this masterful comprehensive scientific quest for truth back cover **The American Ballet** Ted Shawn,1926 The Universalist Leader ,1929 **The Christian Leader** ,1929 **The Voice of Śaṅkara** ,2008 **Thomas Carlyle** James Anthony Froude,1882
