**Dancing in the Glory of Monsters** Jason Stearns,2011-03-29 At the heart of Africa is Congo a country the size of Western Europe bordering nine other nations that since 1996 has been wracked by a brutal and unstaunchable war in which millions have died And yet despite its epic proportions it has received little sustained media attention In this deeply reported book Jason Stearns vividly tells the story of this misunderstood conflict through the experiences of those who engineered and perpetrated it He depicts village pastors who survived massacres the child soldier assassin of President Kabila a female Hutu activist who relives the hunting and methodical extermination of fellow refugees and key architects of the war that became as great a disaster as and was a direct consequence of the genocide in neighboring Rwanda Through their stories he tries to understand why such mass violence made sense and why stability has been so elusive Through their voices and an astonishing wealth of knowledge and research Stearns chronicles the political social and moral decay of the Congolese State
