Vince Guaglione,2020-03-08 I am so over dating As singles we may have heard this statement echoed many times within our immediate dating circles Friends have stated it Many in our social networks have stated it Even we may have stated it at one time or another Many singles have reached such a level of frustration with dating that is has caused them to throw up their hands in defeat But are they honestly over

dating Not exactly At one time or another almost every member of the active singles community will have stated that yes he or she is over dating But the reality is that most are not No matter how many times singles completely swear dating off they continue to entertain the idea that the person of their dreams is out there so they keep trying But many are having trouble sifting through what the dating world serves up and are continually bumping up against issues that prevent them from realizing their dreams which is why for most dating has become exasperating When posing the question Why are you still single to those who are active in the dating pool of the present day you will likely hear replies such as I m too old I m too intimidating I have trust issues No one will date me I want someone who ll match my time and effort I haven t found a serious and decent guy who wants more than a hookup Women don t appreciate good men Something out of my control prevents things from going further I haven t met a guy who s character I can trust I held onto someone for years hoping they would change I don t trust myself to make good decisions Although in recent years dating has seemingly become an exercise in futility and outside factors beyond our control play a part in the lack of success we experience as daters the truth is we as individuals have made it much harder on ourselves if not more so than the dating world has on us When we take a step back and look at society as a whole we find that failing to connect to ourselves and to others in a meaningful way is our biggest problem And nowhere is this more apparent than in the sub section of society known as the available singles pool Those that are actively swimming in its turbulent waters are having a difficult time making sense of what they are seeing hearing and experiencing so it s not surprising that dating has become a casualty of the dysfunctional society of the present day But there are things you can do to making your personal dating life a more pleasurable enjoyable and ultimately successful endeavor In the first part of this book Vince Guaglione take a deep dive into the issues that plague today s dating world how those issues affect the entire dating community and how they have created an environment that has resulted in dating being held in such low regard by those who are currently immersed in it The second part of the book offers up helpful advice tips and strategies for navigating the current dating world and provides guidance on how to make effective and efficient use of your dating time and effort while providing some simple and effective concepts which when implemented will set you up for dating success If you re single and are trying to make sense of the dating world you will find something of value within these pages It s a guide that will provide insight into what s really going on in the dating pool and will aid you in creating a solid plan for remaining afloat

Reality programming, a broad title for unscripted shows that involve non-actors, is really an updated version of a classic television genre that had its first successes decades before *The Real World* or *Survivor* made their premieres. NBC launched *Try and Do It*, a show in which audience members attempted to complete tasks such as whistling with a mouthful of crackers, in 1949. In the 1950s, *Queen for a Day* crowned the most down-trodden of its four contestants at the end of each show, draping her in a sable-trimmed robe and granting a previously declared wish. The time is now ripe for a look back on how this genre has developed, what it reveals about us, and what has transformed it into one of the most powerful forms of entertainment on television today. Using interviews with network insiders, reality producers, and other experts, Richard Huff supplies fascinating insights into the diverse content and often erratic development of reality television programming, augmenting this information with illuminating general connections between the past and present forms these shows assume. From *Queen for a Day* through *Extreme Makeover*, from *Cops* to *Fear Factor*, the genre is placed before us in this exhaustive and many-sided account, an account that uncovers the foundations and the future potential of the compelling and dominating phenomenon that is reality television.

*Confessions of a Middle-Aged Short Guy with No Game* Vince Guaglione, 2018-08-05

Dating in 2018 is difficult for many singles, but if you're a short, average-looking middle-aged guy with no real game, it's even harder to get the attention of single women. The average Joe is considered to be vanilla or bland and doesn't stand out in a crowd. He doesn't have any outwardly discerning high-value qualities, and that makes it difficult for him to thrive in a competitive dating world, one where his opportunities are sometimes limited. It's difficult for average guys to figure out why they aren't having the success they desire, but when taking that hard look in the mirror, they can't help give more than a passing thought to what they have always suspected to be the truth: It has to be me. If you've ever heard a woman say, "I'm sorry, but I don't date anyone shorter than me. I need a really strong guy. I mean, you're not a jerk, and all that's a good thing, but you aren't the type of guy I'd normally go out with. You're such a nice guy, but I think we'd be better as friends," then this is a must-read. As men, we are not expected to feel or show emotion, especially when it comes to dating and handling rejection. But deep inside, we worry just as much as women about how we are perceived. After repeated rejections, our emotions overwhelm us. We feel upset, hurt, frustrated, dejected, helpless, and have many times asked ourselves silently, "Is it really me?" It most certainly is. But there is hope. In this book, Vince Guaglione authentically shares his less-than-optimal real-world dating experiences as a short, average-looking guy with no real game, goes on a fact-finding mission to learn what qualities truly matter to single women, and investigates both the social aspects of the singles world and the dynamics between the sexes in

an effort to learn what they reveal about dating as a whole It s a book that empathizes with the plight of the average Joe It lends an ear provides support offers encouragement and dispenses concrete advice But most of all it gives this problem context for guys who have always suspected that their height looks and lack of game has negatively impacted their dating lives Written primarily for the average Joe who struggles to attract dates it also is relevant for those who are interested in understanding the real issues faced by these guys while navigating the sometimes turbulent and uncharted waters of the dating pool
