## **Dating And The Older Man:**

**Dating and the Older Man** Jerome Albers, 2003 The book is based on my real life experiences as an older man in the Dating game for over 15 years After years in the dating game I experienced many events situations and types of women I look at these experiences honestly and humorously The statuses of women that an older man has available for dating are reviewed Also what a single man needs to do to attract desirable women and where and how to go to meet desirable women are discussed because we all know where to meet undesirable women The pleasures and pitfalls of dating romance and sex are discussed It does not show how to solve all dating problems but most of the dating problems to avoid are discussed It seems that both men and women hate dating and it is our own fault I encourage men to take control of their life and their dating The book describes the characteristics that men desire in women and the characteristics which men find not tolerable in women It also describes the places to meet women and which are good and which are a waste of time and money It is an honest humorous and witty look at this confusing and illogical part of our social life

*Desistance, Resistance, and Normalcy* Tea Fredriksson,Robin Gålnander,2025-03-26 This book provides a nuanced critical analysis of desistance from crime particularly through the lens of women's experiences It develops desistance theory by interrogating the concept of normalcy highlighting how normative societal expectations cause harms on desistance journeys Through this lens the book uncovers tensions between desistance as a journey towards societal re integration and the resistance desisters experience when encountering state institutions and social norms Being no longer part of the old life and not yet part of the new desisters face both familiar and unfamiliar harms A key conceptual contribution is the book's critique of normalcy as both an aspirational and oppressive goal The work illustrates how the pursuit of mainstream inclusion can expose desisters to both new and continuous harms These include surveillance and stigma social and literal death gendered violence and economic precarity By engaging with feminist and temporal criminological theories the book sheds light on how desisters experiences reveal the dark side of normalcy calling into question whether its pursuit is wholly desirable With its focus on the intersections of gender stigma and social control this work advances academic debates on desistance proposing a rethinking of how criminal justice systems and support frameworks engage with those transitioning out of criminalized lifestyles It will appeal to students and scholars of criminology desistance gender studies recovery from addiction and to practitioners and policy makers in these fields **Rembrandt Van Rijn and His Work** Malcolm Bell,1899
