Valuing Dance Susan Leigh Foster, 2019-02-01 Because dance materializes through and for people because we learn to dance from others and often present dance to others the moment of its transmission is one of dance's central and defining features *Valuing Dance* looks at the occasion when dancing passes from one person to another as an act of exchange one that is redolent with symbolic meanings including those associated with its history and all the labor that has gone into its making It examines two ways that dance can be exchanged as commodity and as gift reflecting on how each establishes dance's relative worth and merit differently When and why do we give dance Where and to whom do we sell it How are such acts of exchange rationalized and justified *Valuing Dance* poses these questions in order to contribute to a conversation around what dance is what it does and why it matters

A History of Dancing Sir Reginald St.-Johnston, 1906 St Johnston claims that his book fills a gap in the documentation of dance history and confesses he knows of only three books on the subject those by Gaston Vuillier Edward Scott and John Weaver The work contains much of the same information found in numerous other historiographies of the era The author considers the birth of stage dancing to be Kate Vaughan's Skirt Dance Another opinion expressed by St Johnston is the erroneous notion that the quadrille was one of the dances that directly followed the minuet As was common during this era the author maintains a strict western bias with chapter titles such as Quaint Dances in Civilized Countries
