Data Management And Internet Computing For Image Pattern Analysis:

Data Management and Internet Computing for Image/Pattern Analysis David D. Zhang,Xiaobo Li,Zhiyong Liu,2012-12-06 Data Management and Internet Computing for Image Pattern Analysis focuses on the data management issues and Internet computing aspect of image processing and pattern recognition research The book presents a comprehensive overview of the state of the art providing detailed case studies that emphasize how image and pattern IAP data are distributed and exchanged on sequential and parallel machines and how the data communication patterns in low and higher level IAP computing differ from general numerical computation what problems they cause and what opportunities they provide The studies also describe how the images and matrices should be stored accessed and distributed on different types of machines connected to the Internet and how Internet resource sharing and data transmission change traditional IAP computing Data Management and Internet Computing for Image Pattern Analysis is divided into three parts the first part describes several software approaches to IAP computing citing several representative data communication patterns and related algorithms the second part introduces hardware and Internet resource sharing in which a wide range of computer architectures are described and memory management issues are discussed and the third part presents applications ranging from image coding restoration and progressive transmission Data Management and Internet Computing for Image Pattern Analysis is an excellent reference for researchers and may be used as a text for advanced courses in image processing and pattern recognition

Fully Tuned Radial Basis Function Neural Networks for Flight Control N. Sundararajan,P. Saratchandran,Yan Li,2013-03-09 Fully Tuned Radial Basis Function Neural Networks for Flight Control presents the use of the Radial Basis Function RBF neural networks for adaptive control of nonlinear systems with emphasis on flight control applications A Lyapunov synthesis approach is used to derive the tuning rules for the RBF controller parameters in order to guarantee the stability of the closed loop system Unlike previous methods that tune only the weights of the RBF network this book presents the derivation of the tuning law for tuning the centers widths and weights of the RBF network and compares the results with existing algorithms It also includes a detailed review of system identification including indirect and direct adaptive control of nonlinear systems using neural networks Fully Tuned Radial Basis Function Neural Networks for Flight Control is an excellent resource for professionals using neural adaptive controllers for flight control applications

Computer Vision and Internet of Everything (IoE) for Societal Needs Pandey, Rajiv,Maurya, Pratibha,Singh, Neeraj Kumar,Tiwari, Anil Kumar,Prajapati, Jigna,2025-05-01 The Internet of Everything IoE has been enabled by various technologies and applications IoE consists of sensors and actuators software features that enable processing ability and interoperability across devices and protocols IoE has started revolutionizing many industries and sectors resulting in better overall efficiency and cost savings such as better information and resource sharing and better supply chain efficiency Computer vision trains computers to capture and interpret information from image and video data Thus IoE and computer
