L'architecture De Montreal:

L'architecture de Montréal Raymonde Gauthier, Mia, Pierre-Richard Bisson, Klaus, Stéphan Poulin, Jacques E. Folch-Ribas, 1990 Magnifique album photographique dont les quelque 243 images illustrent la richesse architecturale de notre patrimoine Chaque photo est accompagnée d'une notice qui rappelle l'histoire du bâtiment et son style architectural Qualité remarquable des photographies et de la mise en pages [Art Et Architecture Au Canada](#) Loren Ruth Lerner, Mary F. Williamson, 1991-01-01 Identifies and summarizes thousands of books, articles, exhibition catalogues, government publications and theses published in many countries and in several languages from the early nineteenth century to 1981

Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004 For more information including the introduction, a full list of entries and contributors, a generous selection of sample pages and more, visit the Encyclopedia of 20th Century Architecture website. Focusing on architecture from all regions of the world, this three-volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism. Unlike existing works, this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types, movements, styles, and building practices across traditional geographic and cultural boundaries.

Montreal Architecture François Rémillard, Brian Merrett, 1990

Architecture and Town Planning in Colonial North America James D. Kornwolf, Georgiana Wallis Kornwolf, 2002 Incorporating more than 3 000 illustrations, Kornwolf's work conveys the full range of the colonial encounter with the continent's geography from the high forms of architecture through formal landscape design and town planning. From these pages emerge the fine arts of environmental design, an understanding of the political and economic events that helped to determine settlement in North America, an appreciation of the various architectural and landscape forms that the settlers created, and an awareness of the diversity of the continent's geography and its peoples. Considering the humblest buildings along with the mansions of the wealthy and powerful public buildings, forts, and churches, Kornwolf captures the true dynamism and diversity of colonial communities, their rivalries and frictions, their outlooks and attitudes as they extended their hold on the land.

[Canadian Reference Sources](#) Mary E. Bond, Martine M. Caron, 1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people, institutions, organizations, publications, art, literature, languages, and history. It lists books of a general nature as well as works in the disciplines of history and the humanities. These large divisions are then broken down by subject, genre, type of document, and province or territory. Titles of national, provincial, territorial, or regional interest are included in every subject area when available. The contents of the book are indexed four ways: by name, title, French subject, and English subject. And to facilitate browsing, the major reference books, those dealing with more than one subject or a large geographical region, are also cross-referenced. Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include citation in

the language of the publication and a bilingual annotation The annotations are descriptive and provide information on the content arrangements and indexing of works the availability of non printformats previous editions and title changes and related works Canadian Reference Sources will be an invaluable referencetool for future scholars and researchers *The Living Past of Montreal* Eric McLean,1964-01-01 In 1960 Old Montreal was an abandoned and rapidly deteriorating section of the city With the growth of the restoration movement the external appearance of many Old Montreal buildings was radically altered McLean was the first person to restore a house in Old Montreal as a private residence and he describes how extra stories were removed pitched roofs reappeared facades were cleaned and re adjusted and greater discretion exercised in the use of signs Wilson has watched this evolution with passionate interest and through his evocative drawings presents an intimate portrait of the architecture of the area *The Living Past of Montreal* was first published in 1964 and revised in 1976 This third edition contains many of the original illustrations in addition to twenty new drawings which reflect the changes that have taken place up to the present day
